Australian Frees Lao Girlfriend In Daring Swim

NONG KHAI, Thailand, May 29 (AP) — Thousands of persons have devised ways to get out of Indochina. John Everingham used his scuba-diving skills to get in - and out again with his Laotian sweet-

The 28-year-old Australian newsman, navigating the Mekong River with a compass attached to his diving mask, last weekend swam underwater to Laos under the guns of government patrols. He took his girlfriend from the opposite bank and swam back with her to Thai-

He said that his planning for the escape began almost 10 months ago, when he was the last Western correspondent to leave Laos. He was expelled after more than a decade of residence.

His girlfriend, 25-year-old Keo Sirisomphone, remained behind. She was a medical school student, her father a Communist Party official. Mr. Everingham said that they sent coded messages through friends, fixing rendezvous points.

Two Earlier Tries

Mr. Everingham tried twice earlier this year to swim the river, but each time Laotian troops approached the place where Miss Sirisom-

on Saurday, Mr. Everingham, a powerful swimmer who learned scuba diving on Australia's Great Barrier Reef, made his third plunge

into the river.

"I was very pessimistic this time," he said after the escape. Recent monsoon rains had swollen the river and the current was swift. He could see Miss Strisomphone in a bright red dress on the opposite bank about a mile away.

A day before, Thai officials said, three Laotians had tried to swim to Thailand at the same place. Two were killed when patrols opened fire. Mr. Everingham, using the compass to maintain his direction in the opaque water, said he battled the currents, trying at times to crawl slong the muddy bottom before being tossed about by whirlpools.

When he surfaced, he was still several hundred yards offshore and

swiftly being carried past where Miss Sirisomphone was waiting, with a fishing pole and a child to avoid suspicion. Exhausted. Mr. Everingham said he tried again, this time entering the river farther upstream.

"I made it. I crawled out on the bank. She seemed to have given up. She was walking away in the distance. I yelled at the top of my lungs," Mr. Everingham said. "Then she saw me and started running forward. She fell into my

Half an hour after emerging from the Mekong, Miss Sirisomphone was still shaking and could not remember her name. That officials, sometimes tough on refugees who are considered illegal aliens, were friendly and helpful,

Mr. Everingham said he and Miss Sirisomphone met at the time of the Communist takeover and had to make elaborate, clandestine efforts to meet because relations with foreigners were frowned upon by

Everingham described his girlfriend as a radical student at the time. "She became disillusioned with the system," Mr. Everingham said.

Brzezinski Accuses Russia Of Breaking Detente Code

Urges World Response to African Role

By Bernard Gwertzman

WASHINGTON, May 29 (NYT) Zbigniew Brzezinski, President Carter's national security adviser, said yesterday that the Soviet Un-ion had violated "the code of detente" and he called for "an in-ternational response" to Soviet and Cuban military activity in Africa.

In one of the sharpest denuncia-tions of the Soviet Union by a high administration official in years, Mr. Brzezinski accused the Russians of a variety of worldwide activities in-compatible "with what was once called the code of detente.

Mr. Brzezinski, who visited China last week, also stressed that the United States and China, the Soviet Union's main rivals, "have parallel interests" — a pointed warning to Moscow that Washington is willing to improve ties with Peking if U.S.-Soviet relations deteriorate.

Meanwhile, it was learned that Mr. Brzezinski had advised Joseph Califano Jr., secretary of health, education and welfare, to put off a planned trip to Moscow on June 10 because of the seven-year sentence given to Yuri Orlov, a physicist active in human rights matters. A spokesman for Mr. Califano said that the trip was now being "reconsidered" and probably would be postponed

Mr. Brzezinski's remarks, broadcast on NBC's "Meet the Press" program, came in the midst of negotiations with Soviet Foreign Minister Andrei Gromyko on a new strategic arms limitation accord.
On Saturday, Mr. Gromyko met

with Mr. Carter and Secretary of State Cyrus Vance and other aides. Talks will continue on Wednesday.

The harshness of Mr. Brzezinski's comments — in sharp contrast to those of Mr. Vance and Andrew Young, the chief U.S. delegate to the United Nations - underscored the different voices in the administration on Soviet relations and probably will further cloud the atsphere surrounding the talks. through, and there are those here members to spend up to an addi-who are skeptical. What I am saying is there has to be an international response myko said Saturday that Mr. Carter's information was "not correct." This evoked sharp responses from Jody Powell, the White House spokesman, and Mr. Vance, who insisted the informa-

tion was authentic. Mr. Brzezinski repeated that contention but indicated that the ad-

Criticizes Congress, Backs Carter

Schmidt Backs Arms to Turkey

By Graham Hovey

WASHINGTON, May 29 (NYT) - West German Chancellor Hel-mut Schmidt criticized the U.S. Congress yesterday for refusing to lift the embargo on military assistance for Turkey.

Interviewed in New York on the

CBS-TV program "Face the Nation," Mr. Schmidt said that the denial of U.S. arms was damaging not merely to Turkey's pride but to its ability to help defend the south-ern flank of the North Atlantic Treaty Organization.

Congress imposed the embargo after Turkey's armed forces invaded Cyprus in 1974 in support of the Turkish Cypriot minority and occupied 40 percent of the island.

President Carter has appealed to Congress to lift the embargo, citing not only Turkey's NATO role and the importance of U.S. military installations there but also the necessi ty for obtaining Turkey's coopera-tion for a Cyprus settlement.

'Wiser Than Congress'

"Let me be very frank here; I think that the president of the United States in this regard is much wiser than the Congress," said Mr. Schmidt, who is in the United States to participate in the UN General Assembly's special session on disarmament as well as the NATO summit meeting that begins tomorrow in Washington.

The Carter administration hopes the gathering of leaders for both the NATO summit and the UN session can be used to advance negotiations in Cyprus. Premier Constantine Caramanlis of Greece and Pre-mier Bulent Ecevit of Turkey are expected to meet in Washington. Mr. Schmidt said that West Ger-

many was worried about the tense relations between Greece and Turkey over Cyprus and wanted to be helpful. "We have maintained mili-

tary deliveries to Greece as well as on the Turkish arms embargo bu to Turkey all the time - quite different from what Congress decided in Washington," he said.

"I think it is just asking a little bit too much of the Turks if you deny what they think is their legitimate claim inside their military alliance," Mr. Schmidt added.

For a European leader who made no secret of his preference for Gerald Ford in the 1976 election, and who has had sharp differences with the Carter administration over nuclear exports, human rights, economic and military policy. Mr. Schmidt appeared to go out of his way to support Mr. Carter.

the chancellor not only sided with the president against Congress

said that congressional approval of Mr. Carter's energy program was "the most necessary thing" that could happen for worldwide economic stability and recovery.

(Continued on Page 2, Col. 4)

-"I think this is the most important single instrument in order to bring about better balance, bring about stabilization in the worldments and of exchange rates," he

It was especially essential. Mr. Schmidt added, to stabilize the exchange rate of the U.S. dollar, "which still, whether you like or not, is the decisive currency all over the world. And the dollar is suffer-

Pending Extradition Probe

4 German Terrorists Held By Yugoslavs, Bonn Says

West German government said to-day that four terrorist suspects including a woman believed to have had links with the Italian kidnappers of Aldo Moro — are being held in Yugoslavia pending a decision on a German extradition

Informed sources, who asked not be identified, said that the two men and two women were captured in Yugoslavia almost three weeks ago, on the same date that a fifth Ger-

man terrorist was seized at Orly Airport near Paris before he could board a plane for Zagreb, Yugosla-The sources said that the five ter-

rorists were seized in an interna-

BONN. May 29 (AP) — The tional search that has included West German government said to- Western as well as Eastern European governments.

Justice Ministry spokesman Sept Binder confirmed at a news conference that the terrorists being held in Yugoslavia were Brigitte Mohnhaupt, 28; Sieglinde Gutrun Hoffmann, 33; Rolf Clemens Wagner, 33, and Peter Boock, 26.

Sources said that they were captured by Yugoslav authorities on May 11 — the same day that Stefan Wisniewski, another suspected member of the terrorist Baader-Meinhof gang, was seized at Orly.

Arrests Connected

Although observers said that the circumstances made it appear certain that the arrests in the two countries were connected. German officials refused to give other details

All four terrorists held in Yugoslavia are among a list of 20 suspects wanted in a series of terror strikes last year that culminated in the kidnapping and slaying of in-dustrialist Hanns-Martin Schlever. Six weeks after gunmen kidnapped Mr. Schleyer in Cologne, his body was found in the trunk of an abandoned car at Mulhouse, France, last October.

He had been killed Oct. 18, the same day that German commandos attacked four Palestinian terrorists holding Lufthansa airliner passengers hostage at Somalia's Mogadishu airport. The Palestinians acted to back the Schleyer kidnappers' demands for the release of jailed German terrorists.

Miss Mohnhaupt was suspected having helped the Baader-Meinhol gang maintain close links with Italy's Red Brigades, the extremists who kidnapped and mur-dered former Premier Aldo Moro.

Reports here quoted German and Italian police sources as saying that their suspicions about her possible role were strengthened by at least one clue - the remnants of a chewed-up letter wrenched from the mouth of a Frankfurt-based

they died. Hundreds of others have tried to scale Everest, and thousands have made assaults on lesser mountains that would be regarded as extraor-

borders. There are 33 mountains here that are higher than Mount McKinley in Alaska, which is North America's highest mountain, and much taller than anything in List of Peaks This spring, the government is-sued a new list of 40 so-called "per-

mitted peaks," bringing to nearly 100 the number of mountains open to climbers. For the highest mountains, the government permits only two expeditions a year, one in the spring and one in the fall. Everest the one most in demand, is booked through the spring of 1982. Besides planning ahead, mountain climbers must pay a fee that depends on the height of the mountain. For Everest it is about \$1,200, but since a fullscale expedition can cost \$100,000 or more, the government fee is a minor concern.

Although mountain climbing draws the most interest — a group of American women is scheduled to climb Annapurna this fall — a far larger number of visitors are content just to take long walks through Nepal's green valleys looking at the

it doesn't bear out all their claims. But then the Israelis won't be hap-py with it either," a source com-

The United States will be watching to see if the report is brought to the floor for open debate and is accepted on its merits.

If the combined Soviet-Arab bloc hammers through a new anti-Israeli resolution without taking into account the conclusions of the agency's own committee, Washington is expected to conclude that the organization is still not willing to treat all member states equally.

This was the single principle on which both the U.S. Chamber of Commerce, which selects the U.S. business representative, and the AFL-CIO, which nominates the labor member, based their insistence that the United States withdraw.

"If the ILO will accept the experts' committee report and dis-cuss the occupied bank problem on its merits, then there is a chance not keep applying a double stand-ard as they have in the past." D Los Angeles Times

UN Unit Troops In previous sessions, the United Report Crossfire In S. Lebanon

No.1 across the Atlantic.

ing the seizure declared that some within the monolithic Arab Social-of its articles might "inflame public ist Union, then let these emerge last opinion and incite tension among the masses." The latest issue criticized Mr. Sadat's referendum. Egyptian Father' Ist Onion, mean ten these standing year as political parties. When the pre-revolutionary old Wafd party was revived early this year as an opposition New Wafd party, he did not block it.

Cairo-based diplomats have been thoroughly puzzled as to why Mr. Sadat chose to reverse his democratic experiment in the absence of a physical threat, such as a riot. The immediate conclusion was that he welcomed the benefits of Western-style democracy but could not stand inconveniences like an unbridled political opposition.

Disappointed by Democracy

"He hoped that democracy would be a leedback process, a way to reinforce his position and now he sees democracy as undermining it." surmised an Egyptian intellectual who thought that the President was too thin-skinned to put up with the kind of criticism that democracy fostered.

But instead of defusing his do-mestic problems, Mr. Sadat has ended up conveying the appearance of a politician in trouble. His peace initiative has not delivered the eco-nomic relief that Egyptians hoped for. The initiative itself is virtually lifeless, leaving its architect feeling vulnerable.

His "open-door" policy to attract foreign capital and to stimulate local enterprise has earned some tidy profits for a relatively few inves-tors. But it has yet to produce any real benefits for average Egyptians.

The decision to promote private enterprise without scrapping the centrally planned economic system has among other things, contributed to an annual inflation rate of about 25 percent. In Cairo, life has deteriorated, with periodic shortages of food, often unworkable telephones, decaying buildings, a decrepit public transport system and power blackouts.

Egypt owes its overall solvency to large infusions of aid from the Arab oil producers and from the United States, which is pumping in about \$1 billion a year.

Vocal Opposition

All this has provided ammunition for opponents who coalesced around the leftist party and the conservative New Wafd party. They have been active but relative-ly small in number, with only 23 New Waldists and three leftists in the 360-member People's Assembly.

The New Wald party has tried to embarrass the government in Parliament by assuming a critical role that sometimes verges on the irre-sponsible. In a debate on food problems in March, a New Wafdist shouted "Down with Sadat!" and was expelled

The leftist party has applied its pressure more through its weekly spokesman for the UN interim force in Lebanon said today.

Spokesman Keith Beavan told

Observers have wondered own to tighten controls or was advised to do so, perhaps by the army out of concern for erosion of law and order. There has been some speculation that the crackdown was a precaution in advance of some controversial foreign poli-

Ousted Leader Dies in Escape **Bid in Comoros**

ih, the president of the Comoro Isiands overthrown two weeks ago in coup, was killed today when loyalists attempted to free him from his house where he was under arrest. French officials said.

A former minister, Said Atthoumani, was named head of state after the May 13 coup that brought a military-civilian council to power. Western observers described the new government as a tiberal-socialist regime, a contrast to Mr. Soilih's Maoist policies. After the coup, Mr. Soilih was placed under house arrest at Moro-

ni, the capital of the former French territory Before the coup, several hundred refugees had fled the islands. They

reported repression of political opponents, widespread poverty and ruthless anti-religious policies in a predominantly Moslem country.

Russians Denounced

(Continued from Page 1) ministration was not asserting that the Cubans were directly involved, but rather that they had "responsibility" for the action. He said: "We believe that the ev-

idence we have sustains the proposition - more than that, sustains the conclusion - that the Cuban government and in some measure the Soviet government bear the re-sponsibility for this transgression and this is a serious matter.

Mr. Brzezinski said that he dis-cussed the Cuban and Soviet involvement in Africa with Chinese leaders, who have also been critical Soviet-Cuban involvement should not be "cost-free" to the Russians and that "there are a variety of ways in which concerned countries can convince the Soviets and the Cubans that their involvement, their intrusion, is not only conducive to greater international instablity but in fact carries with it consequences which may be inimical to them as well."

Nearly 1 Million Jobless in Spain

MADRID. May 29 (AP) - Nearly a million workers are unemployed in Spain in a labor force of more than 13 million, the National Institute of Statistics reported

A total of 927,500 workers, or 7 percent of the 13,234,700 persons in the labor force, were unemployed, the institute said. It said that the branch most affected by the unemployment was construc-tion with 191,300 jobless workers, followed by service industries, 158,400, and industry, 134,400.

1973, the government banned the of people who are interested in our sale of hashish, which used to be mountains and come to experience sold all over this capital. Since then, although hashish can still be found, "it has become hassle time

It is a different kind of experi-ence to different people. To George Leigh Mallory, one of the first men to die trying to climb Everest, it was irresistible. When asked why he wanted to climb the world's in Katmandu," as one of the re-maining hippies put it wearily. Other measures include steady official harassment, shorter-term visas and currency regulations insuring that every visitor spends at least \$5 a day. highest mountain, he gave the famous reply, "Because it is there."

Christian Democrats Are Given Mandate to Rule in San Marino

SAN MARINO, May 29 (AP) — The Christian Democrats today emerged as the largest party in yesterday's elections but the three leftist parties as a group won an absolute majority in the 60-member council of the world's oldest and smallest republic. Final returns showed that the Christian Democrats gained 26

seats, one more than in the outgoing Council, while the second largest party, the Communists, kept their 16 seats. The Socialists won eight, a loss of one, and the Unified Socialists seven, a gain of one. The latter party had gained a seat before the election through the death of a deputy.

Although the three leftist parties have a 31-seat majority, the Christian Democrats will be given a mandate to form a government as the largest single party. How the Christian Democrats could manage to form such a gov-

ernment was difficult to say.

The Socialists, playing a key role of a third force, had ruled in coalition with the Communists from 1945 to 1957. Then the Christian Democrats took over the lead with the Socialists.

In November, the Socialists broke up the coalition by demanding participation of the Communists in the government, creating San Marino's longest postwar political crisis.

Officials said 15,489 persons, or 79 per cent of those eligible, had voted, compared to nearly 80 per cent in 1974.

Two busloads of San Marino citizens who live in the United States and made a 4,000-mile flight here to vote were turned away

because they arrived after the polls closed at 8 P.M. yesterday. of the 7,200 el Die voters who have left San Ma no live in the United States. Planes were chartered to bring back those who wanted to vote.

Schmidt Assails Congress On Turkish Arms Cutoff

(Continued from Page 1) from such an enormous

On another issue that has provoked sharp diplomatic exchanges between Bonn and Washington in recent months, Mr. Schmidt said that Mr. Carter's decision to postpone production and deployment of the neutron bomb was "a rather sensible decision."

He said he did not agree with critics who said that Mr. Carter should have demanded a comparable cutback by the Soviet Union before making his decision to delay production of the neutron weapon.

'Sensible Solution

"We might need it in the future," he said, "but it is an option that is being kept open. I think this was a sensible solution."

Mr. Schmidt said that the West's objective in disarmament agree-ments should not be a one-to-one ratio in every category of weapoury but "an overall balance."

Only in regard to recent develop-ments in Africa did Mr. Schmidt appear to be critical of United States policy. "Perhaps the Western community could have reacted a little more clearly in Africa," he said, after praising the French intervention in Zaire.

Mr. Schmidt said he favored a meeting between Soviet President

India Discounts Afghan Threat

NEW DELHI, May 29 (UPI) — Foreign Minister Atal Bihari Vajpayee said today that he does not believe last month's leftist coup in Afghanistan will cause a setback to regional stability and cooperation.

The minister said on his return from a two-day visit to Tehran that several countries had expressed their apprehension over the new pro-Moscow leftist government in Kabul which last month overthrew the civilian government of Mohammed Daud, but he did not share their misgivings.

According to newspaper reports, the shah of Iran wants New Delhi's help in setting up an Iranian-Pakistani alliance in case Afghanistan becomes a threat. But Mr. Vajpayee said that India was trying to minimize apprehension.

Leonid Brezhnev and Mr. Carter, but added: "We would advise our American friends to be careful and to have such a meeting only if you are certain you get something at the

EEC Aide Opens Talks Aimed at Comecon Trade

MOSCOW, May 29 (AP) — A top-level Common Market official opened talks today with the Soviet bloc's Comecon to pave the way for the first trade negotiations between the two economic bodies. Wilhelm Haferkamp, a West

German in charge of external affairs for the nine-member Europe-an Economic Community, is lead-ing the preparatory discussions here with Nikolai Fadeyev, secre-tary-general of Comecon. The two men began meeting in the morning and continued their discussions into the afternoon, a spokesman The Common Market has made

several agreements on steel and textiles with Eastern Europe, but prefers to deal with the individual governments rather than with Comecon as a whole. Since 1975 there have been a

number of exploratory contacts leading up to today's meeting. Mr. Haferkamp's visit is seen here as the last step before direct negotia-tions will begin, probably by the end of the year.

U.K. Bars New Visa For Moon Sect Chief

LONDON, May 29 (UPI) - Ko- Bombings in Corsica rean millionaire Sun Myung Moon, head of the religious sect known as the Unification Church, has been refused permission by the British Home Office to extend a 14-day

Mr. Moon, whose visa ran out Saturday, requested a two-month extension soon after arrival, but it was refused. He has 14 days to lodge an appeal if he wishes, the Foreign Office said, and could stay in Britain pending an appeal hearing. It is believed that Mr. Moon has come to Britain to set up a headquarters here. There are 3,000 Moon sect members in Britain.

After Casino Robbery

Jacques Mesrine Escapes Normandy Police Search

From Wire Dispatches
MANTES-LA-JOLIE, France,
May 29 — Jacques Mesrine escaped a huge police search today in
Normandy by forcing a couple to
drive him and his accomplice here, police said.

Mesrine, who robbed the elegant Deauville casino on Saturday and then fled into the forest near Alencon in Normandy, forced his way into an isolated villa near the forest last night and ordered the couple living there to drive him and his accomplice 150 kilometers to this vil-lage, near Paris, police said. Police said that, after letting

Mesrine and his friend out of the car, the couple reported the inci-

dent.
Police refused to identify the couple or give the circumstances under which their car had slipped through police barrages because Mesrine and his accomplice had allegedly threatened to return and kill the couple if they talked to police.

Blanket Search

Two hundred special police had been dispatched from Paris during the weekend to blanket the Normandy forests where Messine was believed to be hiding. Although the officers stalked the woods six yards apart, Messine, 43, who is also wanted in Canada for the murder of two game wardens, slipped through the web.

On Saturday, Mesrine robbed the Deauville casino. He and an accomplice crashed through two po-lice barricades before abandoning their stolen car in the woods of

Deauville police admitted with some irritation that Mesrine, who escaped from prison for the third time in Paris on May 8, walked into the police station before the rob-bery. Flashing a police inspector's card from the ministry of justice, he asked to see the police chief about a case but was told the man was

Likes to Taunt

Police speculated that Mesrine paid them a visit to make fun of them. Mesrine's lawyer has said that the gangster enjoys taunting his pursuers, as did Dillinger before he was gunned down in a shoot-out with FBI agents in Chicago on July 22, 1934,

After leaving the station, Mes-rine and his accomplice, both well dressed, sauntered into the Deauville casino. Mesrine has gambled there in the past, police said Again flashing his police card, Mesrine demanded to see the man-

4 Terrorists In Custody

(Continued from Page 1)

month. ence to Susanne Albrechts, wanted in the slaying of German banker Juergen Ponto last July — contained a decipherable reference to someone called "Brigitte," the newspaper Die Welt said.

The newspaper, which printed a photocopy of the mangled letter, said that police suspected might be Miss Mohnhaupt.

The Belgrade government and German officials refused to comment on the circumstances in which Miss Mohnhaupt and her three companion were seized.

Justice Ministry spokesman Binder said that the affair was not made public until today because authorities feared that press coverage might warn any terrorists still free.

Still at Large

He and Interior Ministry spokes-man Hans-Joerg Dellmann left open the possibility that some terrorists may still be at large.

The spokesmen said that a Ger-

man extradition request was sub-mitted May 18, but that it is being considered by Yugoslavia, which has referred to the same 1974 extradition agreement between the two countries in its request to Bonn to hand over an unspecified num-ber of unidentified persons.

The spokesmen refused to con-

firm or deny that these persons are rightist Croation nationalists, many of whom live in West Germany. The Belgrade government has re-

peatedly accused Bonn of not cracking down on these Croatian nationalist groups, especially since the February, 1976, assassination of Yugoslav consul Edvin Zdovic in Frankfurt Mr. Binder said that the extradi-

tion agreement requires Yugoslavia to hand over the terrorists regard-less of West German extradition of the persons wanted by Belgrade. He insisted that there is no link between the two cases.

Smash Villa, Agency AJACCIO, Corsica, May 29

(UPI) — A bomb today destroyed the villa near here of Jacques Dominati, French state secretary at-tached to the prime minister's office, and another bomb damaged an Ajaccio travel agency, police said.
No one was injured and neither bomb attack was immediately claimed, but the travel agency has been been bombed three times before. The earlier attacks were claimed by a Corsican separatist

ager. When the assistant manager hurried over. Messine said: Tm Messine You've heard of me. Take me to your cashier."

Mesrine an architecture graduste and Algerian war haro who has written a book about his life in crime, "Instinct of Death," was serving a 20-year sentence for armed robbery when he scaled the 30-foot wall of the Paris Sante prison with an accomplice, Francois Besse. A second accomplice was

After the prison break, police theorized that the high-living Mes-rine, who once greeted his captor with a chilled bottle of champagne and frosted glasses, would stage a holdup to raise money. He did.

U.S. Presses NATO Plan

(Continued from Page 1) to a rejuvenation of the defense posture.

Since the early 1950s, the allisince the early 1930s, the alliance has been unable to match the
Warsaw Pact in numbers of troops,
tanks and fighter aircraft. In the
past, this quantitative edge has
been offset by the West's superior
arms technology. Now defense officials contend, the technological advantage has faded because area
sovernments have not kery area governments have not kept pace with Soviet improvements in the last decade so that the Warsaw Pact has maintained its 2-to-1 advantage in numbers of tanks and divisions. The quality of its arms is thought to compare with that of the

This situation is due in part to the Vietnam War in which the United States spent more than \$150 billion, a large part of which could have been applied to the At-

Early last year, Mr. Carter and Secretary of Defense Harold Brown gave the alliance priority in administration defense policy, a policy that was reinforced by an interagency study that found serious deficiencies in the alliance's capacity to blunt a blitzkrieg from the

Accordingly, at a conference a year ago in London, U.S. officials pressed the allied governments to commit themselves to a 3 percent increase in defense budgets and to establish nine task forces to explore longterm changes in arms production and deployment. For the most part, the European governments have lived up to their pledges on military spending.

Much More Important The officials here say that the

work of the task forces represents a much more important accomplishment. Each of the groups, which completed their work in March, focused on a specific problem and, largely under U.S. pressure, agreed Italian leftist arrested in Milan last on steps to remedy it. The officials said that emphasis was placed on The letter, addressed to areas that have been neglected, "Susanne" — believed to be a refer- among them communications. logistics and reserve forces, as well as cooperation on arms production

and deployment. In some areas, such as building ammunition stockpiles, the allies have not agreed to go as far as the administration wants, but the pro-posed package is said to reflect U.S. priorities by and large, so ad-ministration officials are hailing it

as a major victory.

The officials who have begun to express skepticism question in particular whether the European gov ernments will be able to live up to the promises the administration has prodded them to make. If not, it is believed that Congress will be un-likely to approve the funds the administration will require to live up to its commitments.

A major problem is that NATO has not determined what the whole project will cost each member. Another is that, with so many new programs, there is no clear set of priorities. "It's really a shopping list," a Pentagon official said, "not a coherent plan for action." This is said to pose special difficulties for smaller members.

The officials here also acknowl-The officials here also acknowledge that, while the European governments are said to welcome the new U.S. interest, European defense officials wonder how long it will last. "We bugged out on NATO during the Korean War in the 1950s and then 10 years later got distracted in Vietnam," a State Department official said. "It's only natural the Europeans are quesnatural the Europeans are questioning how serious we are now."

Young, Woods Differ on U.S. Africa Policies

WALTHAM, Mass., May 29 (UPI) — U.S. ambassador to the United Nations Andrew Young yesterday credited U.S. efforts with slowing Cuban involvement in African Cuban in African South African County (1997) rican wars, but former South African editor Donald Woods forecast

Mexico May Begin Selling Oil to Cuba

By Dan Fisher

MOSCOW, May 29 - Mexico soon may begin shipping tankers full of its newly discovered oil to Cuba under an agreement now being discussed between Moscow and Mexico City.

The shipments would be part of a four-cornered oil-exchange pro-gram designed to save both Mexico and the Soviet Union tens of millions of dollars now spent on freight charges.

It was discussed at length during the eight-day visit here this month by Mexican President Jose Lopez Portillo. Sources here said that no final agreement was conculded during the visit, but Mr. Lopez Portillo underlined its importance by referring to the possibility during a press conference. It would be a "small but good example" of the kind of rationalization of energy resources needed around the world.

The exchange would work this way: Mexico would divert oil it is now exporting to Spain, shipping it to Cuba instead. The Soviet Union could then cut its oil shipments to its Caribbean client and send an equivalent amount to Spain, Transportation costs would be sharply reduced for all concerned.

The exchange reportedly would begin with Mexico supplying Cuba

40,000 barrels a day - worth nearly \$200 million a year at current world prices. The Soviet Union, which now exports about 9 million metric tons of its oil to Cuba annually, presumably would divert an equivalent amount to Spain.

Mexico reportedly has promised that it will increase supplies to Cuba as soon as output from its huge new oil fields in Tabasco State can be increased sufficiently.

The potential savings are impressive. The Soviet tanker fleet has never been able to cope with Moscow's oil shipments to Cuba, forcing it to hire foreign tankers at a premium price. If Moscow could save a barrel in shipping costs on its entire Cuban commitment, it would mean a savings of more than \$130 million.

One still unresolved snag apparently are the prices that would be charged under the deal. Neither the oil that Moscow sells to Cuba or that Mexico sells to Spain changes hands at the world market price. According to 1976 estimates, the Kremlin was charging Cuba only \$6.40 a barrel for its oil — about half the world price. Meanwhile. the Soviet Union was charging Spain about \$12.50 a barrel.

The terms on which Mexico sells oil to Spain could not be learned here, but it is believed that there is also a substantial discount

year - the equivalent of more than involved. And rationalizing the flow of money among the various parties to the exchange may prove much tougher than rationlizing the flow of oil. Another question is the political implication of making Cuba reliant on Mexico for a large part of its critical energy supplies and of similarly increasing Soviet

control over Spain's oil supply. The amount of Soviet-Mexican trade at the moment is minuscule. It amounted to only about \$4 million last year and \$25 million the year before, and both sides want to see it expanded. The Communist Party newspaper, Pravda, noted on the eve of Mr. Lopez Portillo's arrival that "The Mexicans are expressing interest in purchasing drilling rigs." from the Soviet

Chinese Report Harassment in Vietnam those who migrated from poor parts of south China in the last two

By Fox Butterfield

HONG KONG, May 29 (NYT) - Accounts by Chinese refugees fleeing their homes in Vietnam tend to substantiate charges by Peking that Hanoi has harassed them, confiscated their property and forced many of them to volunteer to move to harsh, uninhabited areas in the country.

But, at the same time, interviews with ethnic Chinese reaching Hong Kong. Taiwan and refugee camps in Thailand in the last few weeks from their homes in Vietnam also suggest that part of the trouble is simply that the Chinese got caught in Hanoi's drastic effort to abolish private business and move middleclass residents out of the country's cities. Many native Vietnamese have also been swept up in this campaign, which began suddenly in

March, the refugees indicate.
Judging from the refugees' stories, some Vietnamese officials, soldiers and policemen have taken advantage of the new campaign to vent old animosities, singling out Chinese residents for special per-

Atmosphere of Hatred

In this atmosphere of racial hatred, fear and anxiety, 90,000 ethnic Chinese have fled across the border into southern China in the last two months, Peking said yesterday. Most of them appear to have been residents of the mountainous frontier region or of the Chinese community of 200,000 persons in the northern half of the country. Other groups of Chinese from Ho dia despite record rice and wheat Chi Minh City, formerly Saigon, harvests and bulging stockpiles of which has been estimated to have grain. 800,000 persons of Chinese descent, have fled by boat or gotten legal passage on refugee plane flights to other places in Southeast

lars in my possession."

To get his exit visa, he had to bribe a northern official with seven ounces of gold, worth about \$1,200, he reported. "Their attitude was, You Chinese are rich, you can af-ford to pay. But when I left Saigon, all I had was the clothes on my back and \$20 they let me take

Iranian Oil Fire Holds Off U.S., Local Firemen

TEHRAN, May 29 (UPI) - A large oil field in the Maroun region of southern Iran blazed out of control for the lifth day today, defying a team of U.S. firelighters and scores of Iranians.

The fire, which killed two American and five Iranian engineers when it started from a leaking pipeline Thursday, has already caused hundreds of thousands of dollars worth of damage to installations. The still unestimated losses of burned crude and associated gas are substantial, unofficial sources

About 40 Iranian firefighters were taken to a hospital with heat stroke yesterday as the fire, fueled by gas and wind, spread in a one-mile radius around the well, 540 miles southwest of Tehran, reports

A spokesman for the National Iranian Oil Co. said that fire-fighters from the Texas firm, Red Adair, William Henry and Ray-mond Dryer, would not yet use dynamite to try to plug the flames scorching the desert around the

Angry Chinese refugees returning to Hokou in China's Yunnan province from Lao Cai, Vietnam, say they were persecuted.

Refugees of Vietnam Flee At Highest Rate Since '75

By Henry Kamm

BANGKOK, May 29 (NYT) of arrivals in Malaysia and Thai-

Last month, about 3,200 refugees this month about 1,600 have been registered in transit camps, but the figures are not complete.

Malaysia has the largest number. About 2.325 "boat people" landed there in April. In the first 12 days of this month, about 1,300 arrived. The April total was by far Malaysia's highest since the refugee flow by small fishing craft began in ear-nest in 1976. The monthly average over the last 16 months has been

to 835 Vietnamese last month, its second highest month on record.

Malaysian Reversal

Last autumn, Malaysia reversed what had been an inhospitable policy toward boat people, while in southern Thailand, refugees started encountering difficulties. The word has gotten back to Vietnam, and most boats now head for Malaysia. U.S. officials who interview refu-

tribute the size of the flow largely to the recent nationalization of small businesses in southern Vietnam, which has been particularly hard on the Chinese community. traditionally the business backbone of Vietnam as of other Southeast Asian nations. As a result, the proportion of ethnic Chinese among the refugees, always high, is

The small businessmen are not only required to surrender their recalled New Economic Zones. These are largely uncleared jungle areas where the newcomers are given ba-sic tools and food for a few weeks

Chinese in Vietnam are also feel-Refugees are leaving Vietnam at the highest rate since the end of the war in 1975. In April, the number of arrivals in Malaria and Their North Vietnam have, as a result, begun to flee to China in large numbers, and Peking-Hanoi relations are openly strained.

Another factor in the growing refugee flow from southern Vietnam is the prevalence of calm seas landed in the two countries. So far at this season. By late next month, seasonal storms and rains will make crossings much more peri-

At latest count there were 8,840 boat persons in Malaysian camps, 2,146 in Thailand, 904 in the Philippines, 410 in Singapore, 408 in Hong Kong and smaller numbers in Taiwan, Indonesia and South Korea. An increasing flow is also setting out from Vietnam for Aus-

Vietnam Cruel To Prisoners, **Emigrant Says**

PARIS, May 29 (UPI) - Viet-nam holds 800,000 political prisoners, many of whom are former non-Communist members of the National Liberation Front, the political arm of the Viet Cong, a recent emigrant said today.

Doan Van Toai, 32, a former

prisoner, said at a news conference that the prisoners are kept in overcrowded, unsanitary conditions at a near-starvation level and are shot on the spot if caught trying to "Accomplices are bastinadoed

[beaten with a stick or cudgel] on the soles of their feet before the other prisoners as an example," he said. Then they are left in the midmaining stocks of goods but also to leave the cities, mainly Cholon, Saigon's Chinese sister city, for so-food or water, abandoned to the flies and ants until death."

Mr. Toai said that he was imprisoned without trial in June 1975, when he refused to join an action group under the new Communist overnment and was released last November after threatening to kill himself. He said that he used gold to bribe his way out of Vietnam two weeks ago.

Air Crash in Japan Kills 2 Americans

TOKYO, May 29 (UPI) - A light plane carrying four Americans crashed into a forest at the foot of Mount Fuji in central Japan, killing two persons and injuring another, police reported yesterday.

The U.S. Marine Corps at Iwakuni Air Station in western Ja-

pan said that the plane, a four-seat Cessna-180, belonged to the flying club of the Eighth U.S. Army sta-tioned in Seoul. Police said all four passengers were civilian employees of the U.S. government. The dead were identified as Stephen Head, 29, pilot of the plane, and Gerald MacDonald, 49.

Blow to Initiative

Vorster Hits U.S., U.K. Rhodesia Plan

By John F. Burns

JOHANNESBURG, May 29 (NYT) — Prime Minister John Vorster has struck a potentially fatal blow to the British-U.S. peace initiative on Rhodesia by demand-ing that London and Washington abandon the plan in favor of the internal accord worked out by Prime Minister Ian Smith and three moderate black leaders.

In a speech Saturday, Mr. Vorster also warned of the possible col-lapse of a Western effort for a peaceful transition to majority rule in South-West Africa (Namibia), a territory ruled by South Africa. The prime minister said there were signs that the United States, a major participant in the plan, was seeking to make South Africa the scapegoat for the failure of the plan, although Pretoria has accepted it. Mr. Vorster's remarks were ac-

companied by his harshest attack on the Carter administration's policies toward South Africa since the election campaign last year, in which the ruling National Party rode a wave of anti-U.S. sentiment to a landslide victory. He said President Carter's attacks on South Africa's human rights record dur-ing his visit to Nigeria, a military dictatorship, were a "travesty."

Mr. Vorster's remarks on Rhodesia, in an address to a political gathering in the eastern Cape province, were the first substantive response that South Africa has given to a hid for its support that was to a bid for its support that was made by Secretary of State Cyrus Vance and British Foreign Secretary David Owen when they visited Pretoria last month.

Good Impression

The South African leader, speaking after a Friday meeting in Cape Town with Mr. Smith, who is vacationing in South Africa, said be had gained the impression that the biracial transitional government estab-lished under the internal accord was working well. However, the accord has not been accepted by Britain and the United States, which has continued to press for their own plan, he said.

"On behalf of southern Africa I appeal to the British and American governments: Why do you not co-operate with those Rhodesians who want peace?" Mr. Vorster said. "Why do you not abandon your own schemes which these people say are not viable? Why do you not build on the foundations these people have laid?"

The prime minister suggested that London and Washington use their influence to persuade Joshua Nkomo to join the new administra-tion in Salisbury. Mr. Nkomo, coleader of the Patriotic Front guerrilla alliance, has boycotted the agreement along with his guerrilla partner, Robert Mugabe, and both have vowed to intensify the war until their own terms for a settlement

have been met.

Privately, British and U.S. officials have hinted that one way out of the settlement impasse would be for Mr. Nkomo to work out a deal with the leaders of the transitional government, breaking his alliance with Mr. Musahe who has see with Mr. Mugabe, who has ex-pressed a preference for a one-party Marxist state. Mr. Smith has said that Mr. Nkomo, a veteran nationalist with substantial popular support, would be welcomed to join the transitional administration.

Mr. Vorster also called on Britain and the United States to strengthen the internal accord by lifting the economic sanctions im-posed on Rhodesia after Mr. Smith's break with Britain over the majority-rule issue in 1965.

The speech appeared to dash the hopes expressed by U.S. and British officials after the Vance-Owen discussions in Pretoria with South African Foreign Minister R.F. Botha. The officials said then that they had gained the impression that South Africa would intercede with Mr. Smith and the black co-leaders of the transitional administration on behalf of the British-U.S. plan.

Vital Trade

Since South Africa controls Rhodesia's vital trade, including its supplies of oil, it was theoretically possible for Pretoria to oblige the

U.S., Iran Said Near A-Accord

TEHRAN, May 29 (UPI) - The United States and Iran are near a compromise on a much delayed agreement to supply six to eight nuclear reactors to Iran, the newspaper Khayan said today. Iran has agreed not to reprocess spent fuel from the U.S.-supplied

reactors without U.S. approval, and it also has agreed to similar curbs on the use of U.S. uranium in reactors supplied by others, the paper

Iran has sought a "bilateral nu-clear nonproliferation agreement" with the U.S. government for the last several years, but the talks bogged down over U.S.insistence wide-ranging safeguards. As a result. U.S. firms were prevented from participating in Iran's 20-unit nuclear development program.

Salisbury administration to accept the British-U.S. plan. Similar pressure had been applied in the past, notably when Mr. Vorster won Mr. Smith's accordance of an abortion of the white Smith's acceptance of an abortive plan for majority rule formulated by former Secretary of State Henry Kissinger in 1976.

But the Rhodesian administra-tion rejected an invitation to a conference of all parties that was to have launched the British-U.S. plan. A week after meeting with Mr. Vance and Mr. Owen, the transitional government said that the conference was "doomed to fail-

150 Legionnaires Remain To Seek Rebels in Zaire

for another attack.

The bulk of the 700-man French force that parachuted into the town 11 days ago to rescue 2,500 whites withdrew yesterday to Lubum-bashi, 125 miles to the north, before returning to their base on the Mediterranean island of Corsica. As the legionnaires left, sources

said the security in Kolwezi and Shaba province was precarious, with several hundred Katangese rebels roaming the area and capa-ble of launching another attack.

Reports from Kolwezi said that some of the handful of whites who remained in the town have received written death threats. Sources said that looting, allegedly by black ci-vilians and Zairian troops, was taking place.

Mobutu at Elysee

In Paris today, Zaire President Mobutu Sese Seko held an un-scheduled 30-minute meeting with President Valery Giscard d'Estaing at the Elysee Presidential palace and then left for Rabat, Morocco.

The Zaire president, who arrived in Paris last Tuesday, made no comment as he left the presidential palace, Mr. Mobutu left for Rabat, Morocco, to meet with King Hassan II, who last year sent troops to Shaba to help quell a similar rebel incursion. Reporters in Kolwezi said that

the 150 legionnaires left in the town awaiting the arrival of a relief force of 100 Moroccan soldiers had barricaded themselves in their Impala Hotel headquarters. "It's like a Beau Geste castle

down there now, with the legionnaires patrolling the white walls of the hotel and setting up machinegun nests on the roof," a witness The atmosphere down there is

already very different," another said. "It has become very

'Rebel Pockets'

The official AZAP news agency pockets" near Kolwezi. Sources Cross announced today.

KINSHASA, Zaire, May 29 (UPI) — About 150 French Foreign Legionnaires and 1,000 Zairian troops guarded Kolwezi today amid fears that Katangese rebels lurking in the bush would regroup for another attack.

Said the rebels recaptured the key railroad town of Mutshatsa, 63 miles west of Kolwezi, but there was no direct communication with the area and the situation remained confused.

But several hundred rebels, who But several hundred rebels, who

gained a reputation among the French troops as tough bush fight-ers, were believed to be be hiding

Fanfare for a Conference

Zbigniew Brzezinski has ushered in the Washington NATO conference with a flourish of trumpets. His interview on NBC television's Meet the Press was the most sweeping condemnation of the goals and practices of the Soviet Union that has emerged from the current administration, and much of what he said is central to the plans that NATO must

Moscow, according to Mr. Brzezinski, is maintaining "a sustained and massive effort to build up its conventional forces, particularly in Europe, to strengthen the concentration of its forces on the frontiers of China." It is also attempting "to encircle and penetrate the Middle East, to stir up racial difficulties in Africa, and to make more difficult a moderate solution of those difficulties, perhaps to seek more direct access to the Indian

In addition, the president's national security adviser charged the Soviet Union was mounting a "vitriolic worldwide propaganda campaign against the United States." but since Pravda accuses the United States of doing the same against the Soviet Union, this item may be considered to be canceled out.

The bulk of Mr. Brzezinski's case, however, is of grave concern to NATO. What happens on NATO's frontiers is of the first urgency; what occurs in Africa could threaten the organization's supplies of oil and other essential products: a potential war between the Soviet Union and China would have repercussions around the globe.

What one might complain of in Mr. Brzezinski's presentation, therefore, is not necessarily the substance but the form. Is this the

tone which President Carter hopes will prevail at the NATO meeting? What will be its effect on the current direct discussions between the president and Soviet Foreign Minister Gromyko? Is there any contradiction between the United States' position on civil rights in the Soviet Union and on the same subject in China, with which state the national security adviser hopes to enhance U.S.

These are serious questions to be raised so publicly when difficult decisions on controlling strategic weapons and increasing NATO's defensive capabilities are in the making, to say nothing of the current confused situation in the Middle East and Africa. The national security adviser has taken a stand that contradicts that of Andrew Young, the chief delegate to the United Nations: his words are far more abrasive than those of Secretary of State Vance. And what, precisely, is the president's attitude, given these obvious differences among his chief associates in the creation of foreign pol-

It is to be hoped that Mr. Carter will assert, as clearly and as definitely as complex conditions permit, just what that policy is. Television diplomacy received much attention when Egypt's Sadat stretched out a hand to Israel's Begin. But their two nations were talking across a gulf of many wars and no diplomatic relationships. It must be regarded with greater skepticism when the powers concerned have at least the machinery of detente with which to work toward an agreement. President Carter must bring his staff into line - and conduct negotiations with both Moscow and NATO on lines of less-confusing verbiage, less-explosive techniques.

The Politics of Art

Among notable figures invited to testify some weeks ago before a House committee considering a bill for a White House conference on the humanities, was the novelist John Updike, who expressed little enthusiasm for the idea. While acknowledging that he has received his share of federal largesse, Mr. Updike felt unease about government intervention in the humanities and the arts, albeit well meant.

We support aid to artists and scholars for a simple reason: they need the money, and any assistance by government to forces of civilization seems to us wholesome. Yet we recognize that such assistance may bear a political price, and in that regard, Mr. Updike raises a pertinent question: "How can legislators asked to vote tax money away not begin to think of 'guidelines' that insidiously edge toward censorship."

Although "censorship" strikes us as too strong a word for what appears to be happening, we, too, have been troubled lately by a seeming disposition in Washington to allo-

cate federal funds by guidelines that have more to do with politics than aesthetics setting geographical quotas, broadening definitions to include popular crafts, relaxing professional standards for the benefit of local favorites. In addition, there have been the familiar demands to use sex, race, ethnic flavor and so forth as criteria for federal support.

We do not question the dedication or integrity of the staffs of the National Endowments for the Humanities and the Arts who are the first to concede that they are subject to political pressures. That is as it must be where public money is being spent.

But as Mr. Updike observes, politics does not mix easily with art or scholarship. If the watering-down process is to be contained, Chairmen Joseph Duifey of the Humanities Endowment and Livingston Biddle of the Arts Endowment will have to prove themselves artists when it comes to dealing with

THE NEW YORK TIMES.

A-Courting We Will Go

A man in California has put a new spin on the old term "going courting." He is suing a woman for breaking a date. He is not claiming mental anguish, embarrassment or the like. According to reports, he argues that the woman broke an "oral contract" to go to dinner and a show with him. Therefore, he says, she should pay for his fruitless drive from San Jose to San Francisco and back.

He wants \$17 in auto expenses (100 miles at 17 cents per mile). \$17 for his time (at \$8.50 per hour, his minimum rate as an accountant) and \$4 in court costs - a total of \$38. (The woman involved has said that her work schedule as a waitress suddenly changed and she had tried to let him know. She also said he is "nuts" to think she might

pay.)
There is something rather tempting about the idea of suing people who stand you up. Consider, for example, the prospect of compensation from the repairman who never arrives. Or the doctor who runs four hours

But when the philosophers talked about social contracts, they didn't quite have dinner dates in mind. And we shudder to think of the array of mundane social mishaps that could wind up in small claims court. Suppose the woman had kept the date but couldn't stand the man. Could she sue him for wasting her time? What if they didn't like the show? And what about the notion that one's social hours should be valued at professional rates? Perhaps someone is a good accountant but a lousy date - or vice versa.

You can see where it leads. Soon everyone with any social life would want to take out malpractice insurance.

But the introduction of this new risk to what is already a pretty chancy business would surely rob the institution of the dinner date of some of its romance. So, all in all, we hope this involvement of the courts in the conduct of courtship won't eatch on. There is some legal ground that's best left unplowed.

WASHINGTON POST.

International Opinion

The increasingly systematic, blatant and brutal persecution of Soviet dissidents has now reached the stage at which it poses a genuine moral problem for the West ... The issue is how best to live decently and honorably with a totalitarian great state armed with nuclear weapons and ... to persuade it to behave in a marginally more civilized manner. -From The Guardian (London).

Seventy-Five Years Ago May 30, 1903

WASHINGTON-"Impracticable" was the word with which Mr. Henry C. Payne, the postmaster-general, characterized the project of British Co-Ionial Secretart Joseph Chamberlain for tariff retaliation. "This is only another recognition by England that the United States is her keenest commercial rival," he said. Mr. Chamberlain's utterances show that the U.S. invasion has aroused the British to the fact that they are facing a "commercial crisis."

Sir Bob?

No one has given the world more laughs than Bob Hope. It is now 75 years since he was born in Eltham [England]. Long enough, surely, for the land of his birth to give him the honorary knighthood he deserves.

-From the News of the World (London).

In the International Edition

Fifty Years Ago May 30, 1928

PARIS-In the U.S. they are just waking up to the fact that champion Gene Tunney and former champion Jack Dempsey may meet again for the title. As stated in this newspaper several months ago. Tex Rickard has the two signed up for a match next September. In a letter from Los Angeles to the sports editor, it was learned that Dempsey has started active training in California for the anticipated match and will do his final training at a camp in New York.

'This, Of Course, We Know Nothing About — We're in Africa Only as a Stabilizing Force!'

The CIA and Moro: Costly Defeat for U.S.

By Rowland Evans and Robert Novak .

W ASHINGTON—Rigid clamps placed on U.S. intelligence operations by a fearful Congress forced the Central Intelligence Agency to reject a top-priority request for help from Italy in that nation's agony during the abduction and murder of Aldo Moro by left-wing terrorists. by left-wing terrorists.

The request was delivered to the CIA by CESIS, a secret liaison arm of Italy's intelligence service. It asked assistance from the CIA in dealing with the menace of the Red Brigades. Christian Democratic leader Moro's kidnappers and later

In an earlier era, such a request to be helped by what used to be the Western world's most effective inbeen instantly and routinely met.
Not so today. Burdened with restrictions imposed by Congress and targeted as enemy No. 1 by some of telligence organization would have its own former operatives, the CIA

was compelled to say no to CESIS.

CIA Director Stansfield Turner
and his legal advisers wrestled with the request for two weeks before rejecting it. Theoretically, they might have ruled the other way, without running afoul of the law.

Deeper Fear

Their fear, however, went deeper than the cold print of the law. They feared, probably rightly, that even if CIA's clandestine help to Italy in a moment of extreme agony had been ruled technically legal, the chance of discovery by unfriendly fanned it into another political expose. That this was neither subverting a legally elected government nor intruding in another country's election made no differ-

The law is clear. Signed Dec. 30, 1974, it prohibits all undercover "operations in foreign countries [other than routine intelligence gathering] unless and until the pres-ident finds that each such operation is important to the national se-curity of the U.S." Each clandestine operation must be reported to literally dozens of congressmen: the two intelligence committees.

where speed was imperative if Moro was to be saved. The 1974 law, written by former-Sen. Harold Hughes of Iowa and Rep. Leo Ryan of California, requires a full-fledged meeting of the National Se-curity Council and a specific presi-dential directive to the CIA before any clandestine operation can be started. Then comes notification of the four congressional committees.

The only exception is a "generic" presidential funding that permits clandestine CIA help in dealing with "international" terrorism. The months ago. But CIA lawyers, ago-nizing over Italy's request for help, could not absolutely prove that the

Moro-Red Brigades case involved international" terrorism.

Sure," one administration official told us, "we know that the Red Brigades are armed with Communist-bloc guns, but that isn't easy to prove. Sure, we are pretty certain they get training in Eastern Europe. we don't have absolute proof." Lacking proof in internationaliza-tion, the witch-hunt atmosphere that has dominated Capitol Hill's handling of the CIA the past few years called for extreme caution.

Reluctant No

With great reluctance, Turner said no to his Italian counterparts. Instead of gaining access to the CIA's expertise, the Italian government accepted overt assistance from a single State Department psychiatrist, who went to Rome and performed creditably in advis-

ing the Italian government on psychological aspects of the case.

West Bank:

Risks of

Settlement

By Anthony Lewis

NEBI SALAH, Israeli-Qecupied West Bank—Drive north from Jerusalem, and you are in an area of prosperous-looking Arab villages and attractive farms. It is a beautiful part of the West Bank, the rolling hills green at this time of the west wild rosemary in bloom on

vear, wild rosemary in bloom on

west, an old British police station sits on top of a hill. The place is called Nebi Salah: the Prophet Salah, in Arabic, Barbed wire sur-

rounds the shabby building, and Is-

raeli soldiers are on guard. In the courtyard, children play. This is one of the new Jewish set-tlements on the West Bank. A doz-

en families moved into the police station last Nov. 1. On Nov. 19, the day that President Sadat came to

Jerusalem, a large area behind the

police station was fenced off. Bulldozers went to work terracing the area to prepare for 50 planned

At the top of a stairway in the old police station is a poster of thistles with a caption in English: "We

don't promise you a rose garden."
In two rooms there live Shlomi Abramowitz, 28, who came to Isra-

el from Chicago in 1968; her hus-band Gidon, who is from Boston,

and their three small children.
"We wanted to settle ludea and
Samaria." Mrs. Abramowitz gr.

plained to a visitor, "because it be-

longs to the Jewish people, and the only way to make it a fact is to live

Commuters :

Abramowitz and the other husbands are all away during the day, working as engineers, businessmen.

computer programmers, teachers. They kept their jobs in the Tel Aviv

area when they moved into the po-lice station, and they commute.

There's nothing for the men to do here. Mrs. Abramowitz said.

There was once talk of this being a

farming settlement, but the land turned out not to be right. We've left it open for light manufactur-

What about the Arabs in the

area? Mrs. Abramowitz was asked.

What kind of relationship did the

families in the police station have

"We see them," she answered.
"We say hello. But we don't deal with them. There's no need for it.

we have our own supplies in a mun-

scenery and said the families enjoy-

ed walking trips. I asked whether

"We carry guns. It's one of the paradoxes in this life. We feel it's our land as much as theirs, but we have to carry guns and they don't."

To a visitor from the U.S., apply-

ing what he considers rational

standards in a complex modern world, the settlement at Nebi Salah

is an eeric affair. In terms of Zion-

ist ideals it is not a settlement at all.

not a place where the land is re-

claimed and worked. The existence

here is pathetic: women and chil-

dren behind barbed wire, men com-

muting to Tel Aviv.
Of course faith is beyond reason.

and every society has its cults. But

what is going on at Nebi Salah is

not just a quirk, not just an expres-sion of strong personal belief, Nebi

Salah is an important symbol of of-ficial Israeli policy — a policy that

I think will make peace impossible

The other day Israel's defense minister, Ezer Weizman, proposed that about 40,000 Jewish families

be moved into the West Bank in the

years ahead. They would go into six

urban centers — one of them at

The program is a recipe for con-flict. Local Arabs have in fact

brought a suit to stop the taking of land at Nebi Salah, and Israel's Su-

preme Court has agreed to hear it.

Seeing such a place as Nebi Salah makes clear why the settle-

ment policy is an enormous obsta-cle to peace. What Arab govern-

ment can be expected to make

peace with an Israel that claims the right to plant settlements where it

wishes? The Jerusalem Post, a paper that sees most issues in terms of Israeli interest, said the other day

that "the effort to make the mostly

Arab area of Judea and Samaria

Jewish has become an intolerable burden on the Jewish state."

Security is one thing: I think most of Israel's neighbors would accept an Israeli military presence

on the West Bank for years for that

reason. But until Israel distinguishes between security and a claim that the Bible entitles it to

territory, its neighbors will contin-

as long as it lasts.

Nebi Salah

She looked out at the marvelous

market here in the building."

that was safe.

These tragic overtones of ClA impotency in a matter of extreme urgency to Italy go far beyond Italy alone. In the past, U.S. intelligence would have been on the scene helping to unlock the secrets of the Red Brigades; it would also have been the beneficiary of invaluable, onthe-spot information about the Red Brigades and about methods of Italian intelligence.

Exposure to such details is the heart and soul of the intelligence

game, permitting U.S. agents to compile a record that some day could be essential in uncovering future terrorist operations — perhaps in the United States itself. But the C1A's hands were tied in a case demanding speed, courage and political support. The result: a costly defeat in the war to preserve demo-cratic institutions.

It's Difficult Being a Man These Days

By Peter Knobler

TEW YORK—I hadn't thought of this as a hard life. Certainly, no man's life is as pleasant as it might be; satisfactions are sometimes fiercely fought and dearly won. But recently I've been made to recon-

Men rule the world. Simplistically, it stems from physically being able to pick the first berry, kill the first animal — create the first leisure moment, and fill it. It went on that way, unchallenged, for centuries. No man was going to abdicate that kind of power. So why, recently, have several different women asked me congressional sleuths could have whether I found it harder being a man these days?

Assuming they were not speaking strictly personally - we were not talking technique here - I responded automatically. "Nah," I said, "no harder than usual." But there was something in the conversation which made me pause. "Should it be?" I asked.

"It's just that, with women become more of a force," one married friend in her mid-20s said, "I was wondering how it could not be."

There are moments in one's life when an idea which has just been planted seems to have been there all along. "You know," I said slowly, "I think you're

women have organized, and rightly so; their grievances are based firmly in fact. The women's movement bore women's groups and women's seminars and women's consciousness-raising and women's members of the Senate Foreign Re-lations and House International pent-up frustration which mades itself felt through ir-Relations committees, as well as rational hatred. When an element of the civil rights movement turned separatist, I lost several black Despite softening of the anti- friends. When the women's movement turned the CIA mood in Congress, fear of po-litical attack that might damage President Carter. Adm. Turner and white, it is now being made difficult to be a man.

It comes down to added pressures. As well as dealing with the decisions of one's own life - where to go. what to do, who to be - now a guy's got to contend with women breaking all the rules; righteous women with whom there is no argument; angry women with whom there is, Granted, many regulations need breaking, but that doesn't make it much easier.

There are women's movies and women's books, there is a growing — and necessary — women's com-munity. Men remain largely individuals, wielding whatever power each has in the business world's poker-faced solitude. Men's groups were tried maybe five years ago but the concept never quite caught on. Team leisure-time sports and communal beer-drinking may be sweeping the nation, but these are locker-room conventions, not brotherhoods.

I do, however, find myself having more serious personal conversations with men friends lately. Greater depth, more common bonding. With women as well, though there is an activist residue which breeds an unfortunate mistrust - always waiting for the other shoe to fall, as it were. In the ideal, being a man should make it easier to support a woman, and being a woman should make it easier to support a man. Friends ought to aid each other. For certain, the crucial differences should be maintained - celebrated! But spare us separation, please.

It's hard enough for each of us to move intelligently forward without our having to do it alone. If it is harder to be a man these days, perhaps it's because the allies are late in arriving.

Peter Knobler is editor of Crawdaddy magazine, from which this article was adapted for the New York Times.

Behind the Labels: Trying to Understand China

By Theodore C. Sorensen

eign policy — during a carefully conducted tour of China are not enough to provide any final conclu-sions about that vast, complex country. But that is long enough to make clear that our own stock of standard political labels and alignments is of little use in trying to understand China today. Ronald Reagan is warmly wel-

denunciations of Peking's designs on that island, but many of his ideological fellow-travelers are warmly welcomed in Peking for their anti-Soviet militance. And yet Stalin is still the object of reverent homage by the Chinese — who also, however, continue to speak warmly of Richard Nixon. (Surely no other government in the world simulta-neously honors both!)

U.S. liberals are more likely than conservatives to seek "normal" dip-lomatic relations with Peking through a withdrawal of our few remaining military personnel on Taiwan. But Peking today appears more interested in getting U.S. forces into Africa than getting them out of Taiwan, and it avoids the liberals' embrace by hotly challenging their position on the talks on limiting strategic arms or on any other U.S. attempt to negotiate or rely upon agreements with "the Great Polar Bear."

And yet China continues its own sporadic negotiations with the Soviet Union over the disputed boundary between them, and is engaged much more extensively in trade with the Soviet Union than

The Chinese hope for a stronger U.S. military presence all around the world — but not in South Korea, They cite with approval the

NEW YORK—Two weeks or travel and talk — on business, politics, economics and for—yet they were contemptuous of - yet they were contemptuous of the Russians for removing their missiles at the close of that crisis. Dissatisfied

They are dissatisfied today with virtually every aspect of U.S. foreign policy, finding us too dovish in Africa, too hawkish in the Far East, too neutral on the neutron bomb Ronald Reagan is warmly wel-comed in Taiwan for his periodic East; but they nevertheless want to be consulted more closely and more

frequently on that policy. These apparent contradictions in foreign affairs are matched inside China as well. The excesses and convulsions of the decade preceding the present leadership's as-sumption of full power are denounced by China's most bitter critics in the United States, who blame Mao Tse-tung and the Cul-tural Revolution for them. But they are also condemned by the Chinese themselves, who attribute them to the now discredited "Gang of Four." That ideological-minded "gang," deemed the ultimate in radicalism by the West, was actual-

Under the new regime, pragma-tism has not replaced ideology. Somehow they co-exist side by side. Production in the factory is spurred by both slogans and pay differentials. Time is set aside on the agricultural commune both to attend political discussions and to tend private vegetable plots. Governmental and economic decisionmaking are rigidly centralized, but they are also clearly influenced by local initiative and grass-roots poli-

ly reactionary, according to the

ticking. Even more dramatic is the co-existence of the very old and the very new; the money-changer simulta-

neously using an abacus and a computer, the surgeon relying in one operation on acupuncture and lasers; the pagoda in the shadow of the petrochemical complex; the oxdrawn plow across the road from the latest tillage equipment. Under Chairman Mao's successors, one of the world's oldest civilizations has been "born again."

We can and should improve our relations with Peking without wors-ening our relations with Moscow. We can and should recognize, as a

U.S. Ragtime Group

On Ukrainian Tour

MOSCOW, May 29 (UPI)—The New England Conservatory of Mu-sic Ragtime Ensemble headed for

the Ukrainian coal mining center of

Donetsk today to open a six-city tour of the Soviet Union.

The 16-member ensemble, con-dicted by former conservatory president Gunther Schuller, will

give 20 concerts in Donetsk, Odes-

sa, Tbilisi, Tashkent, Novosibirsk and Moscow.

Mr. Schuller's adaptations of

Scott Joplin were used in arrange-ments of the ragtime score for the

Everything seems on the move

is, and deservedly. The

NEW YORK (IHT)—The Ciza-ho was as pure Italian as the year list. "Arrosto Ideacomo." pre-designs two collections a year plus designs two collections a year, plus a special one for Karl Lagerfeld. The three-day fair was once more

a combination of pleasure and business. The black-tie dinner included every segment of the fashion trade—store buyers, including Nan Duskin's Roy Witlin, Ira Neimark (Bergdorf-Goodman) and Marvin Traub (Bloomingdale's); fashion editors, with Vogue's Grace Mirabella; fashion designers, including Cathy Hardwick, Bill Blass, Kasper, Oscar de la Renta and a new one, Julio; and fashion queen bee Martha Philips, of Martha, Not to mention cosmetics, with Estee Lauder and a large sample of social column habitues, including Betsy Bloomingdale, Jacqueline de Ribes, Lynn Wyatt. C. Z. Guest and the

ubiquitous Regine.
Designers Valentino and the Missonis, who run big businesses in

New York, also attended.
Italian architect Piero Pinto had transformed the hotel ballroom's baroque decor into a stylized Italian modern setting.

The stage was backed with thin, ceiling-high columns, all draped with Italian silks. Six-foot-wide silk butterflies that moved about like giant mobiles were hung from the

The Italian silk foray is another chapter in the successful Italian fashion saga over here. Ever since Emilio Pucci opened the way some decades ago, the Italians have been coming to the United States in droves. In the last decade, Missoni became a household name. The Missonis now export 35 percent of their production to the United States and find this country "the most international launching pad in the world. To make it here means making it in the world. Our image exploded all over the world the minute we got known over here," said Rosita Missoni, adding that she also appreciated the Americans' highly professional business manner. "One does more work here in one week than anywhere else in a month. The problem, however, is to keep track of one's production and make sure one's image does not get distorted," she added.

opened eight boutiques in the Unit- in the United States.

Rome Opera on the Road to Recovery

Wagner's "Flying Dutchman" at the Teatro Dell'Opera here is a consecutive formation of the players, whom he can be consecuted by the players, when he can be consecuted by the players, which he can be consecuted by the players, when he can be consecuted by the players are consecuted by the players.

inspires to an achievement that a

few years ago, would have been inconceivable. The Dutchman

score exposes the instruments to in-

dividual risks (brass and

woodwinds especially); the Romans face them and triumph in a highly creditable reading.

Even the chorus shows marked

improvement (and until quite re-

cently this was the Rome opera's

weakest area). The Wagner opera gives them a lot to do, and they do

it enthusiastically, even singing in German with fair fluency. The

sopranos, when heard alone, still

sound wobbly on top, but the addi-

tion of a few young and steady voices should suffice to remedy this

Essentially, the production is Wieland Wagner's, devised some years ago for the Teatro la Fenice

in Venice, after the famous, fascinating Bayreuth staging. Walter Eichner, a Wieland disciple, has reproduced it faithfully; and if it

lacks the ultimate tension and mag-

upwards: first of all, the orchestra, ic that it had under Wieland him-

Lavro von Matacic, who is con-self, it still remains convincing and

will result from it all. "but one can

ed States over the last couple of months, was also at the gala, and for her, business is such that she commutes from Milan to New York. As for Valentino, he has a \$5 million wholesale business in the United States plus a retail licensing business of \$10 million, Valentino's business partner, Giancarlo Giam-

"I like the way people approach the product," Mr. Giammetti said. also like the American marketing approach so much that I am thinking of bringing over some young American blood to help with our business in Europe."

"American women, and men too," said Valentino, 'like change. They like new fashion. They may reject them, but at least they give

He, too, is sold on Americans and would like to bring Americans to his creative studio, "because they have that wonderful sense of simplifying things. We Europeans often tend to see fashion as art pieces. Americans make it today."

Other Italian names that dominate the fashion scene include Gucci, Fendi and an increasingly long list of designers, including Versace, Armani, Krizia and Mila Schon Roberto di Camerino, who has who all have won wide acceptance

Most of the cast was imported

In the title role Leif Roar did not

boom out, loud-voiced, Instead, he

made his strong impression chiefly

through soft, expressive, haunted

singing. The character was often immobile, but never static; and there was an other-worldly quality

even in his heartbroken renuncia-

tion of the last act. Janis Martin

was an intense, human Senta, her

interpretation overcoming any oc-casional shrillness of voice. Peter

Meven was not so much human as earthy: just right for the practical Daland; and Eribert Steinbach was

a more than adequate Erik. Two

Roman stalwarts—the tenor Tullio Pane and the mezzosoprano Anna di Stasio—eminently filled the parts of the Helmsman and Old Mary.

It was a great pleasure to hear this fine performance, but an even

greater joy to sense that the once distinguished Rome opera is con-

tinuing along the road to recovery.

That is the real news from here.

DINING IN PARIS

Woman Behind Menu Reaps Reward

By Naomi Barry

DARIS (IHT)-Christiane Massia, one of the most distinctive chefs in Paris, has been awarded the Merite d'Agricole, and from now on she can sport a ribbon in her lapel.

The occasion was an excuse for Mrs. Massia to give a big party for her friends complete with a rustic band from Montmartre that trekked across town to her 15th arrondissement restaurant, l'Aqui-

On hand was Paul Bocuse, who opened a sexist war several years, ago by declaring on the radio that omen knew nothing about cuisine and had no imagination. Robert Courtine, the gastronomic critic of Le Monde, rallied support for the worthy women chefs in France. Christiane Massia sent Bocuse a retort via Courtine in which she begged the pardon of the Collonges Mont d'Or chef "for baving pained you by one day donning the toque, phallic symbol of your science, of your authority, of your virility."

Bocuse temporarily ate humble pie and publicly acknowledged the contribution of women to French regional cuisine and how much he had learned from his mother and grandmother. The grace did not last. At Mrs. Massia's party, he complimented her for achieving "une cuisine d'homme" and then made a grab for the spotlight by having himself photographed in her kitchen with two girls from the safely say that each house will easily take 40 to 50 new orders," Mr. Porlezza said. Crazy Horse Saloon who suddenly revealed themselves dressed in little more than Paul Bocuse aprons.

Massia was dejected despite the geese, ducks and fole gras. fact that the several hundred guests, happily enjoying her leek tarts, rustic apple pies, and frozen bonbons, were unaware of the flashbulb fireworks in the kitchen.

A slender, delicately attractive woman, who covers her long blonde hair with a white kerchief not a toque, she is largely selftaught and achieved her metier through long hours of trial and error. That her brigade consists entirely of young women is not an ex-pression of militant feminism. Being auto-didactic, Mrs. Massia was shy of any possible criticism from a man under her orders.

The women are doing just fine, and l'Aquaitaine has a smart clientele for such Massia dishes as smoked filets of goose with slices of turnip, grilled filets of duck la-quered with honey and vinegar, salad of haddock, cassoulet of cod and shad with sorrel. She makes her own ice cream, choosing unusual flavors like quince, plum, rhubarb, and carmelized pine nuts. Proustian is a family dessert of freshly baked madeleines served warm with homemade iam.

L'Aquitaine specializes in prod-ucts of the southwest: Atlantic fish

Beatrix in Canberra

CANBERRA, Australia, May 29 (UPI) - Princess Beatrix of the Netherlands and her husband, Prince Claus, arrived here today for

The modest, conscientious Mrs. and shell fish beef of the Chalosse.

"I guess it is for love of my husband who comes from the Landes," said Mrs. Massia. She is a Parisian who married at 18, had two children in quick succession and spent the early years of her marriage in the pine-covered region of the Landes. Always interested in cooking, she learned the dishes of the neighboring women.

Ten years ago the Massias re-turned to Paris and opened the small regional Restaurant du Marche on the Rue de Dantzig not far from l'Aquitaine. All the supplies, shipped directly from the Landes, were cooked by Mrs. Mas-sia. (The Restaurant du Marche is now run by her sister, Yvette. The two sisters, when they can, help in each other's kitchens). Both establishments chalk up the

day's dishes on a large blackboard and both kitchens prepare the foie gras, the confits, the jams and the pickles that are sold in the little take-home boutique next door to the Restaurant du Marche

We lunched on a superlative salmon au champagne. It had been caught in the Adour River and sent to Mrs. Massia by a fisherman she

knows.
"My cooking usually is more simple," she said, "but this is the kind of dish you might expect from a grand restaurant. I learned it from Andre Guillot."

Guillot, a retired chef trained in the old school, has become her consultant-professor, and from time to time she phones him for tips and advice. Mrs. Massia, who rarely

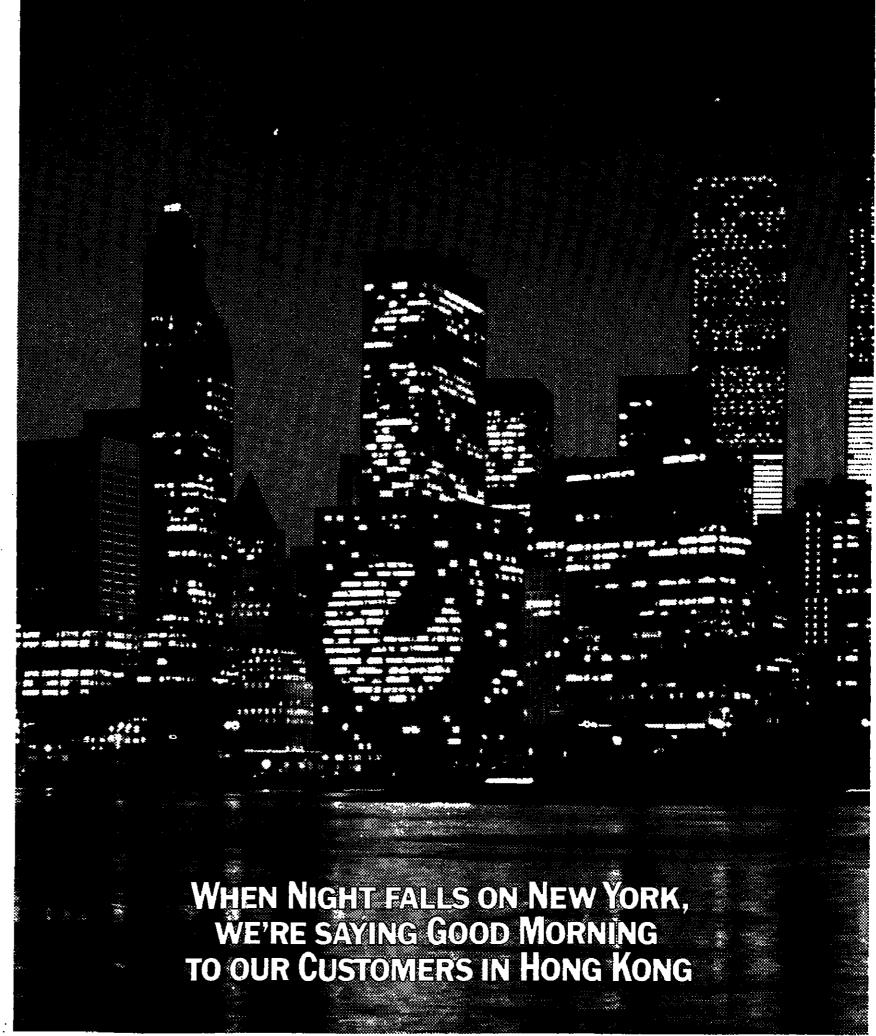

Christiane Massia ...ribbon in lapel.

eats lunch, had nothing but praise for the salmon. People say I am so fortunate because I am so slim. I deprive

Hard-working and passionate about her profession, she hunts up forgotten receipes from the southest and experiments with ideas that catch her fancy. For June, she would like to incorporate flowers into her cuisine. Rabbit with begonias. Salad of chrysan-themums. Fritters of acacia blossoms. In a sauce, the flowers of broom can very nicely replace

Taiwan Plans to Lift Growth Rate 10.4%

TAIPEI, Taiwan, May 29 (AP-DJ)—Taiwan's economic growth rate is expected to reach 10.4 percent in the first half of this year, exceeding the annua! goal of 8.8 percent set earlier, the statistics bureau reported.

The revised forecast was attributed in part to sharp increases in ex-ports and revived investment inter-est. Officials forecast gross national product for the first half at \$11 billion, up 17 percent from the yearago level.

dramatic rebound in lagging out-put, Petroleum Intelligence Weekly Exports in the first six months A key element in the plan to are expected to jump 27 percent to \$5.32 billion. Imports are projected boost exports will be a price reduc-tion of 10-to-17 cents a barrel reto grow 23 percent to \$4.96 billion dlrs. The consumer price index rose 8 percent in April Inflationary In other developments, Libya pressure has come mainly from said exports have been reduced by nearly 22 percent in 1978 to 1.8 million barrels instead of the tar-

Bundesbank Upheld on Herstatt Closure

KARLSRUHE, West Germany, May 29 (Reuters) — The Federal Supreme Court upheld the Bundes-bank's appeal against two rulings over the manner of closure of Ban-khaus LD. Herstatt KGAA in 1974, presiding judge Walter Stim-

pei said today The court quashed a Frankfurt civil court's decision that the Bundesbank should pay Hill Samuel and Co.'s West German subsidiary 10 million Deutsche marks in damsees plus costs and interest, he said. The court also quashed the same Frankfurt court's ruling that the Bundesbank should pay Bankhaus Merck, Fink nearly 880,000 DM damages over the Herstatt closure.

Both Hill Samuel and Bankhaus Merck, Fink must pay all legal

Costs of the case.

The Hill Samuel suit concerned a should be settled legally and are the job of the bankruptcy court and

• OECD Outlines Benefits

By Jack Aboaf

OECD experts maintain that the previously forecast target of 3.5-percent gross national product growth this year for the area as a and West German surpluses by

Of Concerted Stimulus

Supreme Court Quashes Decision For Payment to Hill Samuel Unit

trade which the concern was pre-federal Banking Supervisory Office, vented from completing by the tim-ing of the closure June 26, 1974.

In a statement explaining its decision, the court said that the Bundesbank was under no obligation to withdraw Herstatt from foreign-exchange clearing operatons on the day it closed. Such an unusual measure would have affected numerous interested parties and hastened the bank's collapse, it

percent; France and Italy 0.25-to-0.50 percent; Britain and Canada, 0.25 percent. The United States is

left out as its economy is "on the

right path," the sources said.

Allowing for the multiplier

effects, the proposed additional de-mand would boost GNP by be-tween 0.25-to-0.50 percent in the United States and Canada in the

second half of next year, 3 percent in Japan, between 1.75-to-2 percent in West Germany, 1.25-to-1.5 per-cent in France, 0.75 percent in Brit-

The OECD says the stimulus would result in a slight deterioration in the area's balance of pay-

\$3.5 billion and \$4.5 billion respec-

tively, the sources said. It would

probably add \$1 billion to France's

deficit, improve Italy's surplus by \$500 billion, and have no effect on

the payments positions of Britain

ulus will not affect the area's over-

Additionally, the proposed stim-

ain, and 1.25 percent in Italy.

it said.

The civil court's ruling, upheld by the higher regional court in Frankfurt in 1976, was that the Bundesbank had a duty to warn and protect all banks involved in foreign-exchange clearing as soon as it knew Herstatt was insolvent and talks to save it had finally broken down. Talks to save Herstatt broke down by 2 p.m. local time at the latest on June 26, 1974, the civil court said, but the closure was not officially made for at least 11/2 hours after that.

Hill Samuel said the Bundesbank or its regional branches did not ex-

Waving Fields,

Of Ethanol? AUCKLAND, May 29 (AP-DJ)—A group of New Zealand scientists has produced an optimistic report on the idea of cultivating crops as fuel sources. Crops cited were pinus radia-

sugar and fodder beet, maize, lucerne and pasture Fuels the group believed could be produced were ethanol, methanol, hydrogen and meth-

ane.
The government and university ty group said there appears to be suitable land area for crops that could supply all the country's transport fuel needs by 2000. It said it believed that the crops would yield substantially more energy than would be needed to produce. For example, a spokesman said up to 50 times as much energy could be harvested from radiata pine as would be required to produce it.

Fukuda Seeks Promise TOKYO, May 29 (Reuters)—Ja-pan Prime Minister Takeo Fukuda said today he wants the seven comtries attending the July economic summit in Bonn to promise not to adopt protectionist trade policies.

ercise proper care in connection with clearing of bank's transactions with Herstatt and with the timing of the announcement that day of the withdrawal of Herstatt's banking license. However, the supreme court said the detailed dispute between the Bundesbank and Hill Samuel over timing was not really relevant,

The court said the Bundesbank's task was to ensure a smooth currency clearing system, but it did not appear the case that it should also undertake measures anticipating decisions to close down a bank.

In addition, it said, removing Herstatt from the clearing system would not have resulted only in protecting other banks involved in the system. It would also have disadvantaged some participants in the system as well as customers who could still have counted on satisfaction from Herstatt, the court said.

A one-sided consideration of the interests of those who would be damaged by a continuation of clearing operations with Herstatt could only have been expected of the Bundesbank if those who had suffered from Herstatt's removal were considered less worthy of pro-tection, the court said.

"There is no reason to consider

the latter less worthy of protection than the complainant," it said. The court rejected Hill Samuel's argument that the Bundesbank should have at least issued a warning as soon as it knew the Herstatt rescue talks had broken down.

Hill Samuel Accepts

LONDON, May 29 (Reuters) Hill Samuel and Co. said it accepts as final the West German supreme court's decision upholding the Bundesbank's appeal against damages ruling over the LD. Her-

statt KGAA closure in 1974. Chairman Sir Robert Clark said in a statement the bank was naturally disappointed at the decision. But he said there would be no other legal channels open to Hill Samuel. Hill Samuel's net losses, includ-

ing lost interest and legal costs, amounted to about £1.2 million after tax relief, he said. No further provisions against this loss are required by the bank because the necessary amounts were set aside prior to March 31, 1977.

U.S. Food-Price Inflation Held a Serious Problem

CHICAGO, May 29 (AP-DJ)-U.S. foodprice inflation is a far more serious problem than the Carter administration seems to have realized - or at least has publicly admitted economists say. And moreover, some of the government's own actions are pushing up food

prices rapidly.

Charles Schultze, chairman of the president's Council of Economic Advisers, has said repeatedly that the forces raising food prices are "transitory" and that "the overall rate of foodprice increase should subside after a month or so." President Carter himself repeated that theme at a news conference in Chicago last week, saying that the overall 9.3-percent annual inflation rate in the first quarter was "a temporary aberration brought about primarily by high food costs due to bad weather."

The Agriculture Department is estimating food-price inflation for this year at 6-to-8 percent even though prices in the first quarter soared to a seasonally adjusted annual rate of 16.4 percent.

Forecasts of food prices by many private economists, however, start at the high end of the department's range and go up from there. Mr. Schultze has argued that "severe winter

weather" is the main culprit for food inflation so far. The sole long-term problem that he has cited is the drop in the nation's cattle herd which has already increased beef prices 25-to-30 percent from a year ago.

More Than a Cold-Weather Phenomenon

Packaging and Labor

Department officials note that food prices jumped at a 14.6-percent annual rate in the first quarter of 1977 but then slowed enough so that for all last year they averaged only 6.3-percent above 1976 levels.

But the problem goes beyond cows and cold weather, food-industry economists and officials say. They cite a number of government steps to raise crop prices for farmers. And they note increases in the costs of transportation, packaging and labor, due in part to the minimumwage boost January.

Pillsbury Co. economists forecast a 9.2-percent increase in food prices this year. Chase Econometric Research Associates, a unit of Chase Manhattan Corp., says 8.5 percent, and possibly more. Economists at Quaker Oats see an 8-to-10 percent rise. And Darrell Runke, says "8 percent to 9 percent is very realistic, and may be conservative." **Fundamental Differences**

Pillsbury's chief economist, Richard Crowd-

er, explains: "There are fundamental differences between this year and last year, and they go beyond meat prices. Food-price inflation is much broader than is generally thought."

Wheat, flour, butter, sugar, steers, hogs and broiler chickens all are bringing higher prices in commodities markets than a year ago. And higher U.S. farm prices, the Agriculture Department says, will provide only half of this year's food-price inflation, with 40 percent coming from higher processing and distribution costs and the other 10 percent from price increases on imported foods.

Howard Hjort, the department's top economist, says the farm price increases are needed to make up for the low prices of the past few years. He notes that for the second consecutive year, the cost of labor needed to process and sell food will exceed the total cost of food at the farm level. However, some observers already are speculating about a consumer revolt and government price controls.

Several delegates to an interna-London last week suggested that edvanced nations will need controls IN IN Allifon textile imports for some time to come. This contrasted with the views expressed by representatives from developing nations, who tend-

"Bonn Said Lacking Room for Stimulus

STUTTGART, West Germany, May 29 (AP-DJ)—There is no The interest of the problems. Helmut Schleinger, a member of the Deutsche Bundesbank directorate, said today.

Speaking to a banking group here, he also said stimulus to incitase domestic demand is necessary, but that measures already taken manst be given time to work.

ing the time its markets are protective years, arguments favoring a line time its markets are protective years, arguments favoring a deby import controls, "given the nature of the task and its Europebeen appropriate."

The expected entry of Portugal, Spain and Greece into the European Economic Community will undoubtedly add to the problems of adjustment, he said. Robert Small, president of the American Textile Manufacturers Institute, also called for 10 years of market stability. The U.S. textile industry is on the threshold of "a great moderniza-tion" requiring large amounts of capital, he said. The possibility of uncertainty in the market place could lessen prospects of raising money for the proposed high-tech-nology investments, which will need about seven years to produce a return, he argued.

Concern over the future pros-pects of the MFA arose at the conference following a speech by EEC industry commissioner Etienne Davignon. He seemed to suggest that the EEC textile industry must "adapt to the new world market

conditions" during the current five- cations, but I don't see abrupt

chemicals in Britain's Department of Industry, said. It is beyond dispute that industries must adapt, but it is also beyond dispute that there must be continuity in the world trading system if adaptions are to be made, he told the confer-

> While the community's post-MFA policy would be decided by the EEC Council of Ministers, it seems likely that governments will see "continuing need" for stabiliza-tion in world trade, Mr. Ridley

year "period of security and stabili- changes. I think our industries can bank on that," he said.

A number of factors that would probably influend governments in considering a further extension of the MFA, he said, are expectations that:

World textile production capacity will continue to grow more rapidly than overall demand.

 Production capacity in developing countries will continue to row faster than domestic demand for textiles in the implying that their health will be politically sensi-

• It will be difficult to find other employment for textile workers in advanced nations that are displaced by imports unless economic growth is considerably higher than seems likely at present.

Hitachi Shipbuilding Net Declines 7.9% percent to 60 million DM from 65

TOKYO, May 29 (AP-DJ)—Hitachi Shipbuilding and Engineering parent-company's net profit fell 7.9 percent for the year ended March-31 to 4.82 billion yen (about \$21.1 million) from 5.23 billion yen the

On a consolidated basis, net profit came to 4.79 billion yen, but comparative figures are not available because it is the first time Hitachi has issued consolidated

Parent company sales rose 3.8 percent to 344.9 billion yen from 332.4 billion yen. Per-share net fell to 6.45 yen from 7.86 yen.

Schering's Profit Off BERLIN, May 29 (AP-DJ)— Schering's consolidated net profit

fell 4.5 percent in 1977 to 66.29

Sales rose 6.8 percent to 2.1 bil-lion DM from 1.99 billion DM. Parent company net slipped 8.3 million DM on a 6-percent rise in turnover to 1.29 billion DM from 1.2 billion DM.

Management board member Karl Otto Mittelstenscheid said the company expects a 4-to-5 percent rise in turnover for 1978. He said domestic turnover was up 9.8 per-cent in the first four months of the year from the year ago period but foreign sales were off 9.6 percent

Schering said it will recommend a dividend of 9 DM compared with 10 DM in 1976.

Sharp Earnings Rise

TOKYO, May 29 (AP-DJ)— Net profit for Sharp Corp. rose 29.2 percent in the year ended Dymo Backs Esselte Bid

SAN FRANCISCO, May 29 (AP-DJ)-Dymo Industries said its directors have decided that Esselte's offer to purchase Dymo shares for \$30 a share is acceptable and recommends that shareholders accept

March 31 to 7.5 billion yen (about \$32.9 million) from 5.76 billion yen 111.5 percent.

Sales gained 5.5 percent to 300.78 billion yen from 285.05 bil-lion yen and per-share net profit rose to 22.8 yen from 21.36 yen. The company forecast that net profit in the half year ending Sep-tember will rise to 3.8 billion yen

from 3.76 billion yen.

EEC Textile-Import Plan Hit by Hong Kong Group

LONDON, May 29 (AP-DJ)—Y.C. Chen, chairman of the Hong Kong million Deutsche marks from 69.47 million DM, the company said Cotton Spinners Association, has bitterly attacked the textile-import policy of the European Economic Community as being unfair distance policy. and imposed upon Hong Kong by force.

The EEC, he told a world textile conference sponsored by the British

Textile Confederation last week, "has demonstrated little that is normally expected of a fair and reasonable trading partner. One wonders whether those responsible held the view that force is right and that they had the ability to impose their will on the weaker

rading partners," he said. During the course of his remarks and in a discussion session afterward. Mr. Chen also complained that Britain had failed to give Hong Kong the support it deserved during the negotiations.

After warning the conference that he was not representing the views of the Hong Kong government, Mr. Chen said the colony's textile industry was "aggreed and dismayed" by the recent textile pact agreed upon with the EEC following last year's renewal and modification of the Multifiber Arrangement. Despite years of moderation (he noted that Hong Kong's textile industry was the forerunner of export restraint when it agreed in 1959 to controls on cotton shipments to Britain) and strict adherence to the terms of all the agreements to which the Hong Kong textile industry has been a party - in contrast to the performance of some other nations he claimed - the colony was not given a "fair deal" by the EEC.

"The atmosphere in Brussels at the time of negotiations was chargedwith flashes of veiled threats; and tactical leverage was used by an overpowering nine-nation trade combine to the fullest extent against a free port which has no instrument of effective retalization," Mr. Chen said.

In the end, however, Mr. Chen acknowledged that his objections to the EEC's import controls were "futile."

COMPUTER CAPERS Tales of Electronic Thievery, Embesslement, and Fraud By Thomas Whiteside. Crowell 164 pp. \$7.95.

Reviewed by Christopher Lehmann-Haupt

N THE Washington, D.C., area some time ago, a wily character pulled off the following swindle. Having opened a new bank account with a substantial enough deposit to establish himself as a person of means, he helped himself to a hefty batch of those blank deposit slips that banks provide for customers who don't have their account-coded ones with them. As Thomas Whiteside continues the story: "He took them to premises where a typewriter equipped to write in magnetic-ink characters was available. Using this special typewriter, he imprinted his [newly-assigned] account number in magnetic ink at the bottom of the blank deposit forms. He then made several visits to the bank and on each of them surreptitiously "added these magnetically-printed forms to the neat pile of blank deposit slips in the trays. Then he went away and waited for the jackpot" that would accrue to him when other customers unwit-tingly filled out "his" deposit slips and the bank's computer-actuated sorters automatically funneled these deposits into his account. By the time the customers began to complain about their checks bouncing, this clever fellow had with-drawn a hundred thousand of the quarter-of-a-million dollars that had miraculously been added to his

account, and disappeared.

We must not smile. In fact, it behooves us to furrow our brows with concern. For the above is just one of the many crimes recounted in Whiteside's "Computer Capers: Tales of Electronic Thievery. Embezzlement, and Fraud," which originally appeared in the New Yorker in slightly different form.

And the gist of Whitestone's message is that computer crime is rapidly becoming a serious problem in the United States. As more and more money becomes attenuated into digital impulses, the system becomes increasingly susceptible to electronic rip-off. Of 42 computer-related bank frauds and embezzlements committed in the United States between 1962 and 1975, the average take was \$430,000, compared with \$10,000 for armed bank robbery. What's worse, computer crime

raises all sorts of ticklish corollary problems. Thefts are extremely hard to detect, for the obvious reason that computers do not volun-teer the news that they have been tampered with. Even when the monkey business is spotted, the victim, if it is a corporation, often prefers to avoid the publicity that would come with pressing charges. Where charges are pressed, the law often makes it difficult to prosecute the computer criminal, because, for instance, in many states it has not yet been established whether the theft of magnetized tape bearing securities in digitized form, consti-

tutes grand or petit larceny. Yet so vulnerable are computer systems to illegal "accessing" that not even Internal Revenue Service records or classified military information are considered safe from prying minds. And to top off the frustration of trying to secure com-puter systems properly: computers can easily be made accomplices to the theft of their own information, a fact that becomes evident when you consider how few seconds it takes a computer to run through all

possible combinations of, say, a ive-digit access code.

indeed, the problem of computer crime is to be viewed with outright alarm. And this is more or less what Whiteside does in his low-key, New Yorker manner. He describes the various permutations of computer crime, from attacks by disgruntled employees on core-mem-ory systems, to the frauds within frauds that were perpetrated in the famous Equity Funding caper. He explains the principles, if not the precise details, of how the average computer can be made to yield up its secrets. And he digests the bill that Sen. Abraham Ribicoff of Connecticut introduced in the Senate in June, 1977. "that would make virtually any unauthorized use of federal computers or computer-processing systems, or similar private equipment or systems used in interstate commerce, a federal

All in all, it makes you wonder about the wisdom of supplanting the present currency-exchange system with the national Electronic Fund Transfer System that lies in the immediate future. Anyway, it made me more stubborn in my determination to keep using the old system, even though when I recontly stopped at a hotel and informed the clerk that I would be paying in eash, I was told I would have to pay in advance and was handed a printed form saying that as a cash customer I was welcome so long as I didn't try to pull anything lunny, like making phone calls from my room or charging a meal to my

account.
Still, there is something that makes computer-crime appealing. Maybe it's that we like to see im-personal systems outwitted. Maybe it's just that we appreciate the mind of the computer criminal. Take the case of one young man who, as Whiteside tells it, applied for and received a 12-month installment loan from a New York bank, "On receiving from the bank, together with the loan, the book of computer-coded coupons he was supposed to send in with his monthly payments, he tore out the last payment coupon in the book instead of the first and sent it in to the bank along with one month's payment He then received a computer-generated letter from the bank thanking him effusively for paying off his loan so promptly and assuring him of his excellent credit standing.

Of course, when the bank caught up with him, the young man claimed he had simply made a mistake. But I can't help considering that particular caper elegant (don't fret: it can't be done anymore—as elegant indeed as Whiteside's book

Christopher Lehmann-Haupt is a book reviewer for The New Yor Times.

Nixon Memoirs Sell Moderately, **Publishers Say**

ATLANTA, May 29 (UPI)—Despite boycotts and hostile salesclerks, Americans appear to be making the recently published memoirs of former President Richard Nixon a moderate success in the bookstores.

Mr. Nixon's autobiography, entitled "R.N.: The Memoirs of Richard Nixon," is in its third week of distribution and has already sold between 150,000 to 175,000 copies. according to the book's publishers. Grosset and Dunlap.

Harold Roth, president of the firm, told reporters in Atlanta that the book is doing much better than early, "premature" publicity indi-cated. He said that sales had al-ready greatly exceeded the break-even margin of 50,000, and indica-

club. South can set up dummy's jack by ruffing. So West throws a spade, allowing South to lead to the

king and duck on the way back to

make his contract. The declared would not have had this opportuni-

ty if the club ace had been removed

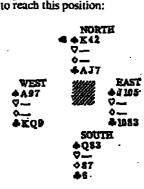

from the dummy at an early stage.

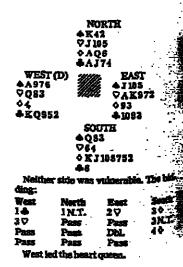

BRIDGE

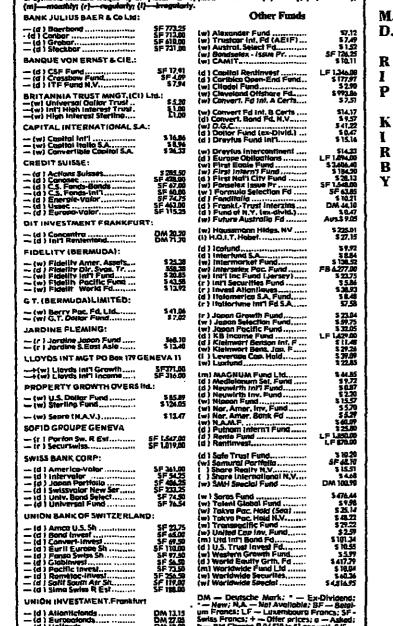

By Alan Truscott

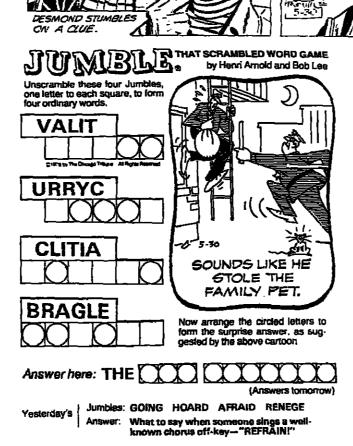

On the diagramed deal a routine defense gave South an opportunity to make a contract that might seem to be doomed. An accurate competitive auction led to South's playing four diamonds after his opponents had bid hearts to the three level. West made the unusual lead of

the heart queen, rather than the normal deuce, since South was likely to be short in hearts and might have had a singleton jack with the king in the dummy. East played the deuce, and West should have taken the hint and shifted to the club king. Instead hearts were continued and South ruffed the third round. The declarer then had the opportunity to lead four rounds of trumps to reach this position:

8 Points in 4 Minutes

Bullets Cut Sonics' Lead But Still Lose

LANDOVER, Md., May 29 (UPI) — The Seattle SuperSonics came close to blowing a nine-point lead in four minutes yesterday but managed a 93-92 victory over the Washington Bullets when Westing Washington Bullets when Washing-ton's Bob Dandridge missed a 15-foot jump shot with two seconds

The triumph gave the Sonics a 2-1 lead in the best-of-seven NBA championship series. Game 4 will be played tomorrow and Game 5 on Friday.

Overconfidence, mistakes and a controversial call by referee Earl Strom almost toppled the Sonics yesterday. A basket by Marvin Webster, who also had 20 points, gave Seattle an 88-79 lead with 3:55 remaining before the Bullets began chipping away.

The Sonics, who appeared to have won when I ted Brown stole a pass and dribbled the length of the court for a layup to make it 90-84 with 1:27 left, were still up by five, 93-88, after Webster made one of two foul shots with 19 seconds left.

Controversial Call

That's when the Bullets - and Strom — made it interesting. A layup by Elvin Hayes cut the deficit to 93-90 with 12 seconds left, then Tom Henderson stole a lob pass and moved in for a layup with three seconds left.

Seattle's Paul Silas, trailing the fast break, caught the ball as it came through the basket and shoveled a pass to Brown, Strom, how-

ever, ruled Silas was straddling the Seattle rookie forward Jack Sikend line - a conclusion televised ma had his best game of the series, replays disputed - and awarded scoring 17 points. Webster hit 9the ball to Washington. for 15 from the floor as Seattle shot Dandridge's last-second shot 47 percent overall, compared with rimmed the basket, saving Silas and the Bullets' 34 percent. Strom from a place in playoff histo-

in bounds, and I step on the line.
"You mean I didn't step on it?" he asked when a CBS announcer told him of the replay's conclusion.
"That's good," added Silas. "I
don't feel so bad about it."

was true. "I thought it was going down," he said. "It was a tough shot, but I thought it was in."

Kuhn Backs Baseball At 1984 Olympics

TOKYO, May 29 (AP) — Base-ball Commissioner Bowie Kuhn said today that he hoped to see baseball included in the 1984 Olympics and indicated that it could be the first World Series between Japan and the United States.

"Japan is working toward this goal," Kuhn said. "We have to see how things develop year by year but we want this as much as the Japanese do. We will both know when the time is ripe."

French Open Starts With Crowded Court

By Samuel Abr

PARIS. May 29 (IHT) — The French Open tennis tournament, the first of the year's four major tests, opened here today with a flurry of men's single matches.

Play will continue through June at Roland Garros Stadium, which is marking its 50th anniversary by adhering to tradition.

None of the other major competitions — Wimbledon, the U.S. Open and the Australian Open, formerly the first of the big four and now the last — combine all the elements of the old-fashioned game as it is played here.

As gardeners worked through the morning planting petunias along the walkways of the club, the first players went to work on clay courts, laboring through matches decided by the best three of five

Additionally, but less unusually, the eventual winner will have to play seven rounds, rather than six, because of the 128 man field ause of the 128-man field.

Weather Warms Because the cold and rainy Paris spring has finally yielded to warm sunshine, the tournament will be physically demanding.

The favorite, especially after his rictory yesterday on clay in the station open, is Bjorn Borg of Sweden. Seeded No. 1 and the victor here in 1974 and 1975, he is rated a 3-2 favorite by a French tennis magazine, far ahead of any competition. itor. In the next rank, at 4-1 each, are Guilermo Vilas of Argentina, Brian Gottfried of the United States and Raul Ramirez of Mexico. Vilas is officially seeded No. 2, Gottfried No. 3 and Ramirez No 6. After these four, in the magazine's odds-making, come Corrado Baruzzutti of Italy, Eddie Dibbs and Harold Solomon of the United States and Manuel Orantes of Spain, all at 8-1. Dibbs is seeded

No. 7 and Solomon No. 8.
Adriano Panatta of Italy and Jose Higueras of Spain complete the magazine's field-leading players at 10-1 each, although neither is officially ranked.

No. 4, Orantes No. 5, Barazzutti

Borg and Vilas, the defending champion, have the ideal game for the slow courts here, accurate and strong attacks from the baseline. Although the clay here is rated by players to be as slow as that in Rome for the Italian Open, the ball used here is considered much faster than the Italian one.

Practice Replaces Poetry

Vilas has met Borg once before in the French finals, in 1975, when he lost. But, as he admitted in an

interview with the French magazine l'Express, before the match "I wrote poetry for an hour. That was not the best way to prepare."

Since then, he has added Ion Tiriae as his coach. Now, Vilas said in the interview, "even when I play in a tournament in the afternoon, I practice two hours every morning with Tirrac.

Vilas did not compete in Rome, preferring instead to capture the unheralded Bavarian Open in Munich and the German Open in

Neither Borg nor Vilas was in action today. The men's field is for-midable, lacking only Jimmy Con-nors, Vitas Gerulaitis and Ilie Nastase among the world's leading

Those three have other commit-ments in the United States, as do all of the major women's players, who continue on the World Team Tennis circuit until Wimbledon.

Seeded first among the women here is Mima Jausovec of Yugoslavia, who won last year. She is regarded by the tennis magazine as a 3-1 choice to retain her title, followed by Regina Marsikova and Renata Tomanova of Czechoslovakia and Florenta Mihai of

Romania, all rated 5-1. In the official seeding, when the women's play begins Wednesday, Virginia Ruzici of Romania is No. 2, Miss Marsikova No. 3 and Nancy Ritchie of the United States

The prize money in the tourna-ment, \$300,000 overall, is similarly unbalanced. The men will divide \$200,000 and the women \$60,000. with the balance for the doubles.

Heard Captures Atlanta Classic

ATLANTA, May 29 (AP) - Jerry Heard won the Atlanta Classic yesterday to join Lee Trevino in making a comeback from back problems that threatened their Carecrs.

They were struck by the same bolt of lightning during the 1975 Western Open and both developed back troubles.

At Atlanta, Heard fired a 5under-par final round for a 269 total. a spectacular 19 shots under par, and a record, on the 6,883-yard Atlanta Country Club course.

Lou Graham, Tom Watson and Bob Murphy tied for second at 271, 17 shots under par but two back of

No Sibling Rivalry

Unser Clan Tries to Keep Indy Crown in Family

By John S. Radosta MDIANAPOLIS, May 29 YT) There is no special rival-between the Unser brothers, Al Bobby, about who wins the Inmapolis 500 more often. After ming his third 500 yesterday, Al ser observed. "We just feel it's portant to keep it in the family." To which Bobby Unser added, ike I always said, be sure to spell

 $(-, M_{\ell^{n}})$

10000

name right." No family is as well represented U.S. auto racing as the Unser mly is Al. 39, and Bobby, 44, we been racing against each other more than 20 years, and the DOTE are about even. Their father 1 two uncles were race drivers. was an older brother, Jerry, who > 5 killed while practicing here in 9. And Mrs. Mary Unser, il. lom" to her many admirers, was withite on the race circuit until death two years ago.

Unser, who won here in 1970 1 1971, was asked which of his ce victories was the sweetest. his one's the best," he answered. always is. This is the race I got for this morning, the one I've m working for all spring,"

Al Unser

Unser has a rural manner of jumps in and keeps on working speech, complete with nonprofanities like "heck" and "danged." He Unser, who began racing when also has a wry sense of humor. At he was 18, has competed in almost one point during a noisy news con-ference after the race, he asked a kind of venue from dirt tracks and

reporter to repeat a question.
"I didn't hear it," he explained, "because I was counting money." There will be plenty of money to count. Unser's share is certain to top \$250,000, more than enough to propel him beyond the \$1-million mark in Indianapolis Motor Speed-

way money. Split With Jones

For nine years, Unser had been a member of the team managed by Parnelli Jones, the 1963 winner here. He was asked if he had any second thoughts about leaving "P.J." at the end of last season. "If I had any second thoughts," Unser retorted, "I would never

have left. We had our differences, but there were no bad feelings. I just didn't want to be on a two-driver team. I wanted to be the only driver, with two cars to drive. Of course, I got only one from Jim Hall, but you can't have every-

thing."
Although Unser made the usual ritualistic bows to the commercial sponsors who make his racing possible, he went far beyond that in praising Hall, the owner and preparer of the Lola-Cosworth in which he won yesterday.

"I had some doubts this spring about the Lola," Unser said of the British-made car. "But Jim said we could make it work, and by golly he

'Totally Aggressive'

"There's no way I could have made this race without him. You know, with some car owners you can tell them to stick it. Not with Jim Hall. He is totally aggressive, a totally fantastic car owner. He

Pikes Peak to road racing. This was his 13th time in the Indianapolis Aside from his three victories, his finishes have ranged from second

After the race Bobby Unser, who got as far as third place before he lost his handling, said he and "Baby Brother" were exceptionally "Every decision he makes, outside of what he does to his car, we

discuss." Bobby explained. He said that he understood Al's frustration

on the Parnelli Jones team, on

which he was paired with Danny Bobby, who won at Indy in 1968 and 1975, noted that although Al was told he was No. 1, Ongais's race car was getting 500 rpm more than Al's car, and "physically Al was becoming No. 2 because the car's sponsors favored Ongais. Of Parnelli Jones' deference to the sponsor, Bobby Unser said, "The spoon that feeds you is the spoon you take care of."

It was Bobby who urged Al to go racing with Jim Hall. "Hall has shown the world he can win races," Bobby said.

Bobby Unser Gains 5th

INDIANAPOLIS, May 29 (AP) - Bobby Unser moved one spot closer to his victorious brother today when the official results of the 62nd Indianapolis 500 were announced by the U.S. Auto Club.
Unser completed 196 laps, one more than he originally was credit-ed, to gain a fifth-place finish. Wal-Dallenbach moved down to

In another position change from unofficial results, Janet Guthrie slipped from eighth to ninth with George Snider advancing to eighth. Snider picked up one more lap in the official standings. Gordon Johncock, who finished

third behind Tom Sneva, was penalized one lap for a pit viola-tion. Johnny Rutherford also was penalized one lap for a pit infrac-Fourth-place finisher Steve Kri-

lating yellow-light procedures dur-ing the race's 31st lap.

Al Unser won the race in 3:05.5499 with an average speed of 161.363. He led the race from laps 76-107, 111-179 and 181-200.

ANNOUNCEMENTS

Their search has left not a few potholes from Manila all the way to the mountain provinces of the main Philippine island of Luzon.

Yamashita Treasure Hunt (Continued)

By Fernando del Mundo

MANILA (UPI)—The search for the VI Yamashita Treasure, which has been estimated at up to \$100 billion, began the day the feared commanding general of the Japanese Imperial forces in the Philippines surrendered in the final days of World War

Filipino and American treasure hunters traced the footsteps of Gen. Tomoyuki Yamashita and their search left not a few potholes from Manila all the way to the

mountain provinces of the main Philippine island of Luzon. Scattered here and there they found old Philippine silver coins and Japanese Marufuku gold coins used to buy the free-

dom of Japanese officers in trouble. But so far, no real treasure has been found. When Yamashita was hanged for war crimes on Feb. 23, 1946, he carried to his grave the secret of his treasure—if there was

Manila newspapers occasionally carry stories of expeditions searching for the treasure, which was supposed to be the Japanese war loot in Southeast Asia and the Philip-

Estimates vary. The \$100 billion estimate was made by syndicated columnist Jack An-

derson in a recent article. Anderson said that the treasure is stashed in 172 secret locations throughout the Philippines, including sunken ships and buried trucks "laden with pillaged gold, silver, platinum, jewelry, currency and other valuables. He claimed that Philippine President Fer-

dinand Marcos has maps to the treasure and is trying to salvage it with a secret combine known as the "Leber." Anderson said that he obtained his information from U.S. State Department sourc-

A Denial

Marcos denied this. "A hundred billion dollars?" Marcos said when foreign correspondents asked him about the Anderson

"That puts us up in the level of the OPEC

[Organization of Petroleum Exporting Countries]," Marcos said with a laugh. He said that he did not see too many gold

bars when Yamashita surrendered in the mountain resort of Baguio on Sept. 2, 1945. Minoru Fukumitsu, a former U.S. war crimes investigator, scoffs at talk of the Yamashita treasure. The American-born Japanese, now a businessman in Tokyo who

commutes regularly to Manila, says that the Anderson article "is a lot of baloney." The 65-year-old Fukumitsu first came to the Philippines in 1953 to negotiate the release of 200 Japanese prisoners of war in Manila. He was able to persuade the late Philippine President Elpidio Quirino to free the prisoners facing death sentences and life imprisonment in return for a pledge that he would look for the supposed treasure. From March to November, 1953, Fukum-

itsu interviewed more than 300 witnesses, including members of Yamashita's staff still living in Tokyo. And with the cooperation of the Japanese government, he was given access to secret documents and even carried his search to the National Archives in Wash-

He came up with a map and in November, 1953, began the excavation. Assisted by a Filipino officer. Venancio Duque, who is now an elections commissioner, the expedition started from Baguio to Kiangan 200 miles north of Manila. The expedition found nothing.

Suddenly Assigned

Fukumitsu says that Yamashita could not have carried the war booty he accumulated in the Malay Peninsula to the Philippines as

After taking Singapore, the victorious general was suddenly assigned to Manchuria because of a rivalry with the Japanese prime minister at the time, Hideki Tojo.

It was not until September, 1944, that

Yamashita was sent to the Philippines.

To people who claim the Yamashita treasure did not come from Malay but was accumulated in the Philippines. Fukumitsu

showed documents signed by the wartime Philippine President Manuel I. Quezon. They were presidential orders to transfer

the national treasury's gold bullion, silver pesos and other securities to the United States for safekeeping.

On Feb. 4, 1942, the 20-ton treasury cargo worth about \$5.5 million was put aboard the

USS Detroit, brought to Pearl Harbor and then transferred to the submarine USS Trout, presumably for the U.S. mainland. Fukumitsu says 30 million pesos in silver coins were shipped by trucks to Corregidor

but were dumped into Manila Bay before the island fell to the Japanese. He says that the Japanese salvaged 2 million coins immediately after they took Manila. The loot was kept at Ipo Dam just north of Manila to be used in case of an

north of Manua to be used in case of an emergency because paper money was virtually worthless at that time.

In his retreat, Yamashita took along 1 million pesos in silver coins and \$950,000 in U.S. currency, says Fukumitsu, Yamashita left the valance with his men covering his

200,000 Coins

But only 200,000 coins reached Yamashita's final destination. The U.S. dollars were subsequently ordered burned and the pesos were distributed among the officers.

Fukumitsu says that the only Japanese war treasure he knows of lies in the Formosa Strait 14 miles off the Chinese mainland in a cargo vessel, the Awa Maru.

That ship, with Allied guarantees, made three mercy missions to Southeast Asia for Japanese war prisoners before it was accidentally torpedoed by the submarine USS Queen Fish on April 1, 1945.

The Awa Maru carried with it to the sea bottom 2.007 human beings-and \$500 million worth of war material and war loot. Fukumitsu, who has written a book on the Awa Maru incident, says he regularly writes Chinese authorities for permission to

the violins with the rapid move-ments of their bows. Several never salvage the vessel but has not received any heard the repeated admonition of 'everybody up" from the conduc-

Amy Carter and father after performance.

Amy Carter Steps Out PEOPLE: With Her Best Bow

made her musical debut playing "Twinkle, Twinkle, Little Star" on the violin in the finale at a recital. Some of the younger musicians cried, others sai and stared at the crowd and one boy used his bow to tidy up the stage. President and first lady Rosalyan Carter joined about 3,000 relatives and friends of the performers who watched the two-hour performance at Wolf Trap, a national park for the per-forming arts located about 10 miles from Washington. About 600 youngsters, some as young as 3. used violins, cellos and violas to play the music of Buch. Vivaldi. Beethoven and other composers. As a beginner-she started playing last fall—Amy was assigned to the group effort. All of the performers are learning under the Suzuki meth-od, which stresses listening to the music rather than reading it. The conductor gave final instructions for the grand finale—which she called "the ever famous variations on Twinkle, Twinkle -and then told the youngsters to "Play your hearts out." Amy's face was serious, just like her mother's and father's at first. As the music went on, their expressions turned to smiles. Amy's remained one of fixed concentration. The presidential daughter learned one of the facts of life of show business. She was upstaged by younger children who were in front of her. Some of them looked as if they were sawing
